SIX PLUNGED DOWN SHAFT

Were Crushed to Death When a Mine Cage Fell.

Men Were on a Wooden Beam Which Struck a Plank and They were Dumped Out.

ONE WAS A PHILIPSBURG YOUNG MAN

Pittsburg, November 16.—Six men were instantly killed, another dangerously injured and three others had narrow escapes from injury or death in a mine accident at Ellsworth mine No. 1, located in Washington county, late today. The mine is owned by the Ellsworth Coal company of this city.

The dead:

M. G. Walsh, aged 23, civil engineer of Philipsburg. Eugene G. Smyth, aged 25, civil engineer.

J. B. Newcomer, aged 22, civil engineer.

Three foreigners, known by numbers only.

Injured:

Harrison Randolph, drilling machine operator, struck on the head by timber. The three engineers who had been employed by the company for several years had just completed a survey of the mine preparatory to starting new entries, the six foreigners having assisted them. A heavy wooden beam was loaded into the cage and its ends projected beyond the sides, the men riding on the timber. All went well until within seventy-five feet of the top of the shaft when the projecting beam struck one of the planks of the shaft's cribbing, displaced by expansion due to the cold, and most of the men were dumped out of the cage. Six fell to the bottom, a distance of 225 feet, the heavy timber on top of them were bruised and crushed beyond recognition.

Randolph, although almost unconscious from a blow on his head, caught a chain at the side of the cage and clung to it until rescued at the surface. Three of the foreigners with the first impact were thrown to the floor of the cage and reached the surface, stunned and slightly bruised but little the worse for their experiedce.

An Awful Record

Some one recently announced with gratification that the Adirondacks hunting season had passed with a fatality which lead us to believe that gunners were gaining caution. Then came the record of seven killed in Maine while the season was yet young, and our early belief was shattered. The deer season has just opened in Wisconsion and already twenty-one hunters have been killed and thirty-seven have been seriously injured. Among the injured are many who have lost either an arm or a leg. It may be assumed that the game in the Wisconsin woods has suffered some but the hunters have suffered more.

We are reminded that recently Mr. Kalbfus, the Pennsylvania game commissioner, supported a recommendation for increased appropriations to restock the state forests with game by the argument that "hunting makes men." We have not weakened in our belief in true sportsmanship, but this Wisconsin record points to the conclusion that going out with a gun in inexperienced hands makes corpses and cripples instead of men.

Mrs. Joseph Peters.

Monday afternoon about two o'clock Mrs. Blanche Peters, wife of Joseph Peters, died at her home on the W. T. Speer farm at Pleasant Gap, of illness following confinement three weeks ago.

Mrs. Peters who was a daughter of John and Mary Kline, was born in Howard township and was aged about forty years. For the past sixteen years the family has resided near Pleasant Gap. She was a member of the Methodist church at that place and a kind christian woman. Surviving are her husband and five children: Louis, Cora, Homer, Nellie and Leonard. Three brothers, Samuel, Charles and Albert Kline also survive.

The funeral took place Wednesday afternoon from the home and services were conducted by Rev. David Sower. Interment at Pleasant Gap.

SEMI MONTHLY COUNCIL

Open Session Was Brief But an Executive Session was Held.

The regular semi-monthly session of the borough council was held on Monday evening at 7 30 in the council chamber in the public building on Howard street. In the absence of President Judge the chair was filled by Dr. Kirk. The other members present were Shuey, Wagner, Beezer, Musser Hamilton, Harper and Keller.

The minutes of the previous meeting were read and approved.

Burgess John I. Cor in asked for the re-instatement of Wm. Beezer as Chief of Police until the meeting of the new council in March.

The fire hydrant at Green's corner on Linn street is broken and needs repairs, according to the report of Councilman Keller. He also said that all fire hydrants should be inspected before cold weather sets in. It was so ordered.

R. A. Beck complained that he had no water at his properties on North Allegheny street. Residents on this street had paid to have the water laid out to these properties. The American Lime & Stone Company had tapped the pipe to furnish water to the Armor Gap works. This made them short of water.

The finance committee asked that the borough note be given for $2500, dated Nov. 19th. A note for $8,500 due on the 19th was ordered paid.

The council then went into executive session, thus excluding our reporter. It is supposed this was done to properly discuss the light and power proposition which is now under consideration, and we cannot at this time tell what progress is being made along this line.

The following bills were approved and orders drawn:

Street Pay Roll	$125.23
P. R. R. Co.	15.00
Police Pay Roll	52.50
Bellefonte Electric Co.	2,40
Bellefonte Gas Co.	48.10
Eureka Co.	720.00
C. Y. Wagner	2.72
J. T. Mitchell	25.00
Water Works Pay Roll	61.75
National	15 00
Bellefonte Electric Co.	1.00

Boyd C. Packer

Boyd Cummings Packer, one of Lock Haven's best known and foremost citizens, died suddenly Saturday evening at the residence of Moore Fredericks, cashier of the First National Bank at that place. He was taken suddenly ill about 9.15 o'clock, while spending the evening at the Fredericks home, and Dr. J. M. Hayes, who was one of the company, administered to him but found the heart affected and that he could not live. He passed away about 10.30 o'clock,

Boyd C. Packer was a son of William F. Packer the fourteenth governor of Pennsylvania and was born and raised in Williamsport. He was in the sixty-sixth year of his age. About forty years ago he left Williamsport and went to Flemington, Clinton county, where he was engaged in the milling business at the mill now owned by Foresman & Kelsey. For a number of years he was connected with Lock Haven Terra Cotta and Fire Brick company. His death is greatly mourned by a large circle of friends in Lock Haven and elsewhere. He was a member of the Masonic order.

He is survived by his wife, Katherine Wilson Packer, and three children, William F., Marie and Katherine. Two sisters, Mrs. Sarah P. Allis, of Easton, and Mrs. John A. Woodward, of Howard also survive him.

The funeral took place in Lock Haven Tuesday afternoon at 2;30. Services were conducted by Rev. John A. McSparran and Rev. Wilfred P. Shriner. Burial was made in the Highland cemetery.

A Noted Hunter.

Jeff Deeter, of Warriorsmark valley, has gained quite a reputation as a hunter. He has caught this season twenty coons, two of which he presented to Edward Imhoff, of Tyrone, who is raising them as pets. He has also shot a mountain lion, which he killed after night, shooting it in the darkness. He has also a big string of squirrel a number of rabbits, and Mrs. Deeter shot a large wild turkey in this section. Mr. Deeter has also shot several wild turkeys.

Jeff is an old nimrod and one of the most skilled and successful hunters in this vicinity. Mr. Deeter has two trained coons which are marvels of intelligence to all who see them. They are as tame as dogs and follow him at his command. He had also a kennel of the finest hunting dogs in Pennsylvania.

WILL ASK FOR APPROPRIATION

Governor Will Recommend Building of the State Highway

TO VISIT HOSPITALS

Will Favor Continuance of war Against Tuberculosis and will ask for Liberal Appropriations.

IS NOW PREPARING HIS MESSAGE.

Governor Stuart will recommend that the Legislature which convenes in January appropriate $6,000,000 for the construction of a State highway from Philadelphia to Pittsburg.

This will be the leading feature of the Governor's message to the Legislature, the preparation of which he now has in hand. The message will be brief and to the point.

Another feature will be a recommendation that the State continue its liberality in appropriations to prevent the spread of tuberculosis.

It is the belief of Governor Stuart that with the appropriations made by the Legislature of 1907 conditions in State institutions for the care and maintenance of the insane have been decidedly improved, and that the crowding of patients, through lack of sufficient quarters, has been entirely eliminated.

In order that he may have first hand information as to these institutions, Governor Stuart has decided to personally visit every hospital for the insane in Pennsylvania receiving State aid. His visit to the Norristown Hospital on Saturday marked the beginning of this tour of inspection.

He will not announce his plans in advance, and the officials of each institution will not know of the date of his coming until the Governor arrives there. By adopting this plan the Governor believes that he will be abe to learn the exact conditions of each insitution and thus fortify himself in determining the needs of all when they come before the new Legislature for appropriations.

Another subject which will be brought to the attention of the Legislature will be that of rearranging the present form of the election ballot. Governor Stuart said that he thought this should be done so long as proposed changes would simplify voting and protect the interest of the voter. The large number of votes cast for presidential electors and for other candidate on the ballot, due to ignorance of carelessness on the part of the voter, has convinced the Governor that some change, so long as it is for the better, should be made by the next Legislature. He advanced no plan for overcoming what he regards as a defect in the present form of the ballot.

Electric Developments.

Close on the heels of the electrification of the Pennsylvania railroad from Harrison, a Newark suburb, to Long Island City, comes the official announcement that the system from Manhattan and Jersey City to Philadelphia will also be electrified, and that the running time between New York and Philadelphia, a distrance of ninety miles, will be reduced to one hour, thus placing William Penn's city practically on the outskirts of New York.

The Westinghouse company is already at work on the new engines, which are capable of a speed of 120 miles an hour.

It is also said that the next step in the general electrification scheme will be started on the division of the road between Philadelphia and Pittsburg.

Both the Central Railroad of New Jersey and the Delaware, Lackwanna & Western system are considering making like changes.

Evangelist B. F. Campbell

The annual revival services of the United Evangelical church will begin Sunday December 6th. The pastor, Rev. J. F. Hower will conduct the services alone the first week but from the 14th to the 31st he will be assisted by Evangelist B. F. Campbell who comes to Bellefonte very highly recommended as both a sweet singer and an earnest preacher of the Old Truths. He has had fifteen years of successful evangelistic work in various denominations. Remember the date Dec. 14—31.

W. C. T. U. PLANS.

Will Storm Legislature in an Effort to Secure Local Option.

Twenty thousand women will march on Harrisburg in January in an effort to induce the Legislature to pass a local option bill.

That is the plan of the Pennsylvania Women's Christian Temperance Union, which has determined to make a vigorous fight to place Pennsylvania in the list of dry states.

The decision to storm the next Legislature quickly followed the return of the Keystone State delegates from the national convention of the W. C. T. U., which was held in Colorado last week. At the convention a large map of the United States was suspended from the ceiling, the dry states being printed in white and those permitting the sale of liquor being in black. Pennsylvania was one of the blackest.

The Keystone State delegates decided that something decisive must be done, and immediately the State President, Mrs. Ella M. George, of Beaver Falls, sent out a call for the 20,000 to beard the lawmakers in their den.

Despite the fact that Pennsylvania was painted black on the map, the State carried off all the honors at the convention. The Pennsylvania union gained 2,854 in membership, the largest gain in the country, and was awarded a white silk banner; it was awarded prizes for securing the largest number of subscribers the Union Signal and the Crusaders' Monthly, W. C. T. U., papers; secured a white silk banner as the prize for the best all around work of soldiers and sailors; was given a prize flag for Loyal Temperance Legion work, was the highest in railroad work and was honored an "State night" when the delegates from the various States were given spaces on the platform.

Entertained Queen Temple.

On Thursday evening Mr. and Mrs. Edward Swiler gave a supper to the Queen Temple lodge No. 51 of Bellefonte at their home on Bearer row. The lodge is the ladies auxiliary to the Eagles and on the evening mentioned members and friends to the number of thirty-eight accepted the invitation of Mr. and Mrs. Swiler and gathered at their home where one of the most pleasant evenings was spent. The host and hostess had provided everything and anything that that would add to the pleasure and enjoyment of their guests, who made the best of every opportunity for fun and jollity. One of the most amusing features of the evening was the grab bag which had been provided for the entertainment of the company and to which there was no end of fun and amusement. A large sack was filled with all kinds of small toys, candy, chewing gum, etc. and the drawing proved quite interesting, as everything was so wrapped the person who grabbed could not tell what it was until unwrapped.

About eleven o'clock Mrs. Swiler served an elegant supper which she had provided for her guests. The supper consisted of all the season's delicacies and was considered a feast fit for the gods. Before returning to their homes the company voted Mr. and Mrs. Swiler royal entertainers and expressed their gratitude to them for having been so considerate of those whom they had entertained.

U. S. Steel Extensions.

Pittsburg, November 16.—The United States Steel corporation has decided upon new plans and extensions in the Pittsburg district to cost $5,500,000, the greater part of which will be used to increase its capacity for pressed steel cars.

President William E. Corey left for the east tonight after a conference with superintendents of local subsidiary plants covering two days, although usually such conferences are concluded in half a day. Just before leaving he said that the steel corporation would immediately erect in the Pittsburg district a new pressed steel car wheel plant at a cost of $3,000,000 that improvements and extensions of the Schoen Steel Wheel company recently acquired by the corporation would be made at a cost of $1,500,000 and that extensions of some of the departments of the Homestead Steel company would be made at a cost of at least $1,000,000

Pletcher—Loder.

At the United Evangelical parsonage Thursday afternoon, Nov. 12, 1908, Mr. Joseph G. Pletcher, of Bellwood, Pa., and Miss Elizabeth C. Loder, of Bellefonte were united in marriage by Rev. J. F. Hower.

DEATH WAS MYSTERIOUS

Osceola Man Found Dead In Wagon at Philipsburg.

TEAM WALKING SLOWLY

Head Was Resting on Iron Rod in Front of Him—Was Returning From Hunting Camp

HEART FAILURE GIVEN AS CAUSE

Sunday evening about 7 o'clock Sterling Simcox, of Philipsburg, was driving along Presqueisle street when he overtook a team moving along gradually, pulling a large empty wagon. He noticed that the driver was reclining with his chin resting on the iron rod in front of the bed. He called to the man but receiving no answer, made an investigation and to his horror found that the driver was dead. The burgess was called, and he had the team cared for and gave the body in the care of an undertaker.

It was soon learned the unfortunate man was Joseph M. Bickle, who has since last spring been operating the farm of D. T Meyer, near Osceola. He had left the latter place Sunday morning with a hunting outfit, consisting of tents, provisions, etc., accompanied by William Webster, a member of a hunting party enroute to Six Mile Run. Delivering his load, he left the camp about 5 o'clock in the evening for home. He was said to be airight when he left the camp, and the finding of his dead body, in such a peculiar position, so soon after, was quite a shock and could not be explained, and will probably remain a mystery. He is said not to have been a drinking man, and the supposition is that in driving along, standing, the wagon struck a rut, and there being a little snow in the bed, he slipped and fell forward on the rod mentioned, with fatal result, or that he was taken with a sudden attack of heart failure.

It was intended to hold an inquest Monday morning, but as there was no evidence of foul play, this was thought unneccessary, and the body was taken to Osceola for burial.

The deceased was aged about 31 years and unmarried.

Walter Edmiston.

Walter Edmiston died at his home in State College Sunday morning after an illness of one week with typhoid pneumonia. Mr. Edmiston was born and raised in College township and was aged about thirty years. By trade he was a carpenter and followed his vocation in State College. He was a member of Odd Fellows lodge and Modern Woodmen of America and enjoyed the friendship of all.

About ten years ago he was united in marriage to Miss Ida Cole, a daughter of Mr. Robert Cole, of this place who survives him with four children, Ralph, Thomas, Freeda and Catherine. His father, Joseph Edmiston, one brother Harry, of State College, and one sister Cora, who is married and lives in Altoona, also survive.

The funeral took place Wednesday afternoon at one o'clock, services being conducted by C. C. Snavely of the Methodist church. Interment in the Branch cemetery.

Reuben Harter

Reuben Harter died at his home near Coburn Thursday morning of last week after a lingering illness of paralysis, aged 70 years, 8 months and 9 days. Mr. Harter was one of Penn township's well known citizens, a farmer by occupation and was identified with the affairs of the community in which he lived.

He leaves to survive a widow and two sons: W. J. and A. M. Harter, of Harter, W. Va., and the following brothers and sisters: Absolom Harter and Mrs. Michael Fiedler, of Millheim; Mrs. Polly Royer and Mrs. Kate Neese, of Rebersburg; G. W. Harter, of W. Va. and Mrs. Reed Alexander, of Buffalo, Mo. Funeral services were held Sunday forenoon, conducted by Rev. C. F. Garret of the United Evangelical church and interment was made in the Fairview cemetery at Millheim.

BRICK COMPANY MEETING.

Hayes Run Co. Has Bright Prospects for the Coming Year.

The annual meeting of the stockholders of the Hayes Run Fire Brick company was held at Orvis Friday morning Judge Ellis L. Orvis, the president of the company presiding. When Secretary W. O. Bentley called the roll it was found that there were 49 stockholders present, a number of whom represented several proxies.

Karl Legner an expert auditor from the Pittsburg Audit Co., presented an exhaustive report showing the condition of the business of the company. This report was very favorable, and made a good impression on the stockholders. Mr. Legner went into the details of the operations of the company and the stockholders are much encouraged at the prospects for business during the coming year. The company has been shipping a large quantity of brick during the past two months and the orders continue to come in a way that is very encouraging.

The board of directors was increased from five to seven and the following gentlemen elected to serve for the ensuing fiscal year.

Judge Ellis L. Orvis, John R. Stevenson, George R. Thompson, B. F. Brown W. O. Bently, W. I. Harvey and Chales R. Kurtz.

Robert H. Furst and Ira Smith were placed in nomination as directors, but declined to serve and were therefore not balloted for.

In the afternoon the directors met and organized by the election of Judge Orvis as president, John R. Stevenson, vice president; W. O. Bently, secretary; I. L. Harvey, treasurer, and Carroll Keller as general manager. The latter takes the place of W. I. Harvey, who declined to serve any longer in this position on account of ill health.

The company now has 20 kilns and a new extension to the works makes the main building 70x500 feet. This new extension has not been folly completed, but can be in a shot time if business conditions warrant it. When this is done it will give a capacity of about 100,000 bricks per day.

Academy Won From Philipsburg

The Bellefonte Academy eleven seems to be well nigh invincible this year. On Saturday they went to Philipsburg and played a team composed of the best players of that part of the country and defeated them by a score of 11—0. The game was played in a snow storm the ground being covered with at least two inches of snow and yet a fairly good sized crowd braved the storm and watched a contest that was quite interesting to behold. Fumbling was the order of the day owing to the slippery condition of the ball and yet the Academy outplayed their heavy opponents at every point never allowing them to make a first down during the entire game. Dillon made a score as usual in the first half and kicked the goal. In the second half Oberlin, after a beautiful run, bowling over player after player landed a touchdown. No goal resulted.

This made the ninth victory of the season out of ten games played. A remarkable record indeed.

The last game of the season in Bellefonte will be played on Saturday of this week at the Academy field at two o'clock sharp. The visiting team will be the Philipsburg eleven. Go and see the sport, you will get your money's worth.

The line up.

Bellefonte	Positions	Philipsburg.
Sleppy	left end	Todd
Wilson	left tackle	McCausland
Stevens	left guard	Moore
Shenck	centre	Rittenhouse
Loudon	right guard	Barr
Elliot	right tackle	Press
Thomas	right end	Lichtenhaler
Wright	quarter-back	Thomas
Oberlin	left-half back	Simler
Dillon (Eisenbeis)	right-half-back	Johnson
Wagner	full-back	Hewitt

Referee—Hall. Touchdowns—Dillon, Oberlin. Gosls from touchdowns—Dillon. Time of halves—15 minutes.

William Long.

William Long, of Blandeburg, a son of the late George Long and wife of Blanchard, died last Wednesday evening at his home after a protracted illness of stomach trouble. Arrangements had been made to take him to Philadelphia to a specialist when he suddenly grew worse just after Charles Long of Mill Hall, and Wm. Austin of Blanchard, brother and brother-in-law respectively, had reached his bedside. He was aged 49 years and is survived by a wife and several children. He is well remembered in Blanchard where he lived with his parents in his younger days. The funeral was held on Saturday.

FINDING FRANCES.

By CARL WILLIAMS.

Copyrighted, 1908, by Associated Literary Press.

"Miss Pollard! This is a surprise indeed! I supposed that you were out west."

Christopher Brooks, boarding the fast train in Philadelphia, motioned to the porter to place his suit case in the section occupied by Frances Pollard and sank into the seat beside her in response to the mute invitation in her eyes.

"I am to visit old school friends," explained the girl. "It is my first visit to New York."

"And you never let me know that you were coming!" Chris' tones were laden with reproach.

"How could I?" defended the girl. "In spite of the fact that you did not answer my last letter, I wrote you that I was coming east and that I should be glad to have you meet me at the station in Chicago and visit between trains."

"Chicago!" echoed Chris. "I went to New York six months ago. I wrote

"I'VE FOUND YOU TWICE INSIDE OF TWO HOURS."

you of the change, and as you did not reply I supposed that you were lost in the social whirl and did not care to waste time in writing when I was so far away."

"You should have known me better than that." The words were simple, but the look accompanying them was eloquent. It seemed to tell Chris that only through faint heartedness had he failed to win his fair lady and that there still might be a chance.

"It seems to be a muddle all around," he said. "The firm were rather angry at my going, though I gave them two weeks' notice, and they knew that I was bettering myself."

"The chances are that they did not forward your letter to me and did not mail my letter to you. I remember that I dropped it into the office mail box. The cashier was a petty sort of person. This may have been one of his revenges."

The many changes which had come to both since their parting furnished a theme for conversation, and the train was pulling into the terminal at Jersey City before it was exhausted.

Exultingly Chris felt that the misunderstanding was all cleared up, and he told himself that it would not be his fault if Frances did not return home an engaged girl.

"Will your friends be here to meet you?" he asked as the porter took their hand bags.

"I told them not to bother," explained Frances. "Bessie's mother is an invalid, and Bess works downtown somewhere. I'll just take a cab to the house. It's uptown. The address is in my grip. I always carry everything in my grip. Then I have only one thing to watch instead of a valise and a purse and perhaps a couple of bundles."

"That's a sensible thing," cried Chris admiringly. "Only you mustn't lose your valise."

"I should say not," agreed Frances laughingly. "I should find myself without money and, worse yet, without even Bess' address, since she had to move last week because their old house was torn down."

"I'll look out for the valise," promised Chris as he helped her down the steps of the Pullman. "Better walk behind me and let me force the way. I'm more used to New York crowds," he explained, with the pride of a new resident.

Now, at Jersey City the concourse opens on three ferry slips, all leading to various parts of Manhattan. Chris headed for the downtown ferry, which would bring them near the subway, and not until the boat was reached did he turn to see if the girl was still following.

The gates were closed behind him and the boat was slowly passing out of the slip when he made the discovery that Frances had not followed his instructions.

She was not in the tail of the crowd that had been hurried aboard by impatient gatemen, nor did a careful search of the boat reveal her, and Chris' hope that she might have been swept aboard by the other gangway was dashed.

He made the return trip on the same boat, railing at the delay, and after a hurried scrutiny of the concourse decided that she must have taken the upper ferry to Twenty-third street.

A boat was about to start, and he rushed on board, the perspiration streaming from his face. He still carried Frances' valise and his own heavy suit case. Frances could not leave any ferry house without the valise, for it contained her money and her friend's address. She could not apply to the old address to find out where her hostess had moved, because the house had been torn down. She must wait for him.

He dashed through the exit and through the waiting room, searching both floors, but there was no trace of the girl. He was about to go to the street and question the carriage agent when the doorman, who had watched his actions curiously, came up.

"Are you the chap that lost a lady?" he demanded. "If you are, I told her to go back to the Jersey side and wait for you. She followed a man she thought was you and got on the wrong boat."

Chris pressed a coin into the man's hand and sprinted down the slip just as the boat was pulling out. He barely managed to leap aboard before the gates were closed, and he stood on the forward deck to cool off.

When the boat should make the Jersey shore this worry would be at an end. So he regarded the panorama of river life complacently.

He was the first passenger off the boat and out on to the concourse, but neither on the concourse nor in the waiting room could he find her, though he searched both. She must have boarded the Cortlandt street ferry, so for a second time he made for the slip, catching the same boat that had carried him across before. One of the deck hands regarded him curiously as he passed.

"Ain't you the fellow what paid his fare to me to stay on the boat a couple of trips ago?" he demanded.

Chris nodded, and the man grinned. "I thought you was," he continued. "There was a lady down here looking for you this last trip. I remembered you went right back, and I sent her on to Twenty-third street. She didn't have the price of her fare," he added meaningly, and again the grateful Chris passed out a coin.

"Funny you didn't see her," mused the man as he slipped the money into his pocket. "She was on the boat when we landed. I told her to take a look around and then make for the Twenty-third street slip.

"I was looking in the waiting room for her," explained Chris. "I guess it'll be all right now."

But things were far from all right. When Chris leaped from the boat at the uptown landing, the doorman who had spoken to him before laughed loudly as he caught sight of the panting and perspiring traveler.

"I told you to wait on the Jersey side," he cried. "The girl came back, and I told her you were down there waiting. The man on one of the Cortlandt street boats sent her up here while I was sending you back. I told her to sit there in the shed this time for an hour and I'd find you somehow. Better stay on this boat. The fare's 3 cents. You owe a ticket for her too. She didn't have any money."

Chris passed over a dollar. "Keep the change; it's worth it," he said, and he went back on the boat.

Fifteen minutes later the crowd surged off the boat in a rush for the trains, and Chris went with the tide of humanity until it separated toward the various gates.

As he turned to search the seats a pair of soft arms went about his neck, and he looked down into Frances' crimson face.

"I didn't mean to do that," she cried, "but I was so afraid I'd lose you again if I didn't grab right hold of you."

"I like it," declared Chris. "I thought I never should find you."

"That's the way it seemed to me," she confessed. "I never was so glad to see any one in my life. A fat woman came in between us, and when I looked around to find you there were two men who looked so like you that I wasn't certain which was really you. They were both going toward the uptown boat, and I followed them."

Chris transferred the valise to the hand that carried his suit case, and with the other he grasped her arm.

"I'm not going to lose you this time," he announced. "I don't want ever to lose you again, Fanny. May I keep you—always?"

What he saw in her eyes caused him to lean over and kiss her.

"Everybody kisses everybody else at the railroad station," he explained as he led the way to the boat. "And they haven't half my excuse. I've found you twice inside of two hours."

The Old Time Shawl.

The shawl was originally not a woman's garment exclusively, for the Scotch highlander has his tartan plaid, and the men of northern Italy still wear a cloak which is very little more than a shawl. There can be no question that the shawl is more useful and more picturesque as an article of attire than the close fitting coats both men and women now wear. The shawl could in case of emergency be used to protect two persons or to wrap a child in or as an extra bed covering. Its fashion did not change every three months, and it could be used and passed down in the family until it was worn out. Nowadays the only time when such articles are used is when people are making an ocean trip or traveling in Europe. "Traveling rugs," which are nothing more or less than men's heavy shawls, are extremely English, and for travelers they are considered very proper and desirable, but outside of a steamer, train or carriage no one who cares for what people will say would be seen with one.—Argonaut.

DEADLY PLAGUE AMONG CATTLE

Farms Being Quarantined to Preven. Spread of Disease

GOVERNMENT TO ACT

Vigorous Measures Will be Taken to Stamp out the Disease Which is Fatal to Cattle.

HERDS WILL PROBABLY BE KILLED.

The situation regarding the outbreak of the European cattle plague, the hoof and mouth disease, in portions of Columbia, Northumberland, Union and Montour counties, has grown more ominous. Dr. Leonard Pearson, state vererinarian, is stationed at Danville and is directing an effort to stamp out the disease in its incipiency. Several United States officials have been sent from Washington to assist in heading off the plague and they are endeavoring to locate it wherever it exists.

It is believed to have come from cattle imported from Buffalo. In the present ontbreak only about sixteen farms are involved and a determined effort is being made by the State to confine the disease to its present limits.

The disease spreads with facility and develops in the infected animal with excessive rapidity. It is characterized in the onset by trembling and fever. Later, blisters form in and about the mouth and between the toes and upon the udder. These blisters soon break, leaving ulcers. The animals are often very lame. Milch cows suffer from a general inflammation of the udder.

The mortality from foot and mouth disease is low, but it is nevertheless the cause of extreme losses in herds and in districts where it occurs. It is estimated that from one third to one-half the value of every herd that is attacked by foot and mouth disease is thereby destroyed.

The outbreak is considered too dangerous and difficult for the state, with no funds at its command, to handle successfully. Unless the United States government can be induced to enlist in the fight it is feared the epidemic may linger a long time, even though strictest quarantine be maintained. The only effectual way to stamp out the disease is to authorize the killing of all infected animals. Such a course requires money to reimburse the owners, as is done in the case of tuberculosis.

The State has no fund for such purposes. The outbreak of the foot and mouth disease being one of the contingencies that was unforeseen. Unless the infected cattle be killed they will be obliged to worry through a troublesome siege of a month or more. While some or all of them may recover it is a question whether they will ever be worth anything to the owner.

Letter from Dr. Holloway.

We are in receipt of a letter from Dr. H. C. Holloway, of Harrisburg, and believing that many of his friends here would be glad to read a few words from his pen we give it space in our columns.

HARRISBURG, PA.,
Nov. 08, 1908.

DEAR MR. TUTEN:

Of all your many friends, no one rejoices more than I, over your success in the recent election. Please accept my hearty congratulations. Were I still a resident of Bellefonte your majority would have been greater by one, at least. Old Centre stood well in line, and seems thoroughly wedded to the Republican cause. I know the time when it was quite different, and gave large Democratic majorities as many as 1600 and upward. Something has happened since those days and now.

And now when I read of old Centre County Republican majorities, I am reminded of what father Linebach, the old tin-smith of Aaronsburg used to say, in Penns. German, when large whig majorities were given in his native county of Lancaster: "Es mocht mich recht stoltz feele mit mine olde county." And so it is with me. I feel proud over the Republican majorities of old Centre, my native county. And so let the good work go on.

Wishing you abundant success, and assuring you that I much appreciate and enjoy your good paper, I am as ever.

Your's Sincerely,
H. C. HOLLOWAY.

The Rev. Irl Hicks Almanac.

For 1909, ready Nov. 15, 1908, best ever sent out, beautiful covers in colors, fine portrait of Prof. Hicks in colors, all the old features and several new ones in the books. The best astronomical year book and the only one containing the original "Hicks Weather Forecasts," By mail 35c, on news stands 30c. One copy free with World and Works, the best $1, Monthly in America. Discounts on almanacs in quantities. Agent wanted. Word and Works Pub. Co. 2201 Locust Street, St. Louis Mo. Every citizen owes it to himself, to his fellows and to Prof. Hicks to possess the "Hicks" forecasts,—the only reliable.

The Pole Star.

Ursa Major and Ursa Minor are known also as the triones and as the Greater Wain and the Lesser Wain. It is curious to note that the larger constellation was given the figure of the bear by the Arabs and by the Iroquois red men. The assumed forms are ordinarily fanciful, and the identity of the names in this instance affords food for speculation. Homer uses both bear and wain (wagon) in his references to these stars. It is evident that the name bear was a translation from some original Aryan language, as the constellation is called in Sanskrit riksha, a word that in different genders means both a bear and a star. Of course the polar star in the tail of Ursa Minor is the constellation's point of glory. In this case we may say fairly that the tail wags the dog, because the group of stars was once called the dog's tail, or cynosure. From that we have our word cynosure, that toward which all eyes turn, as to the dog's tail for sight of the pole star.—Minneapolis Tribune.

How Nora Coaxed the Tips.

A group of women were standing in the corridor of a summer hotel when an aged scrubwoman started upstairs with a pail of water. Just then a bright faced, buxom Irish chambermaid came up.

"This looks purty heavy for the likes of ye," she said cheerily to the old woman. "Better let me help."

She took up the paid and whisked off upstairs with it.

"How thoughtful of Nora!" "Isn't she kind?" and similar expressions rose to the lips of the women. The proprietor of the hotel and another man also witnessed the incident.

"Clever girl, that Nora," said the hotel man to his companion. "She's always doing something like that when there are people looking on. She gets more tips than any two other girls in the house. She could afford to pay me for the privilege of working here. Every summer she makes enough to spend the winter in idleness at her old home in Ireland."—New York Tribune.

Oddities of Color Blindness.

Color blindness, or the inability to distinguish certain colors, is by no means rare. Incomplete color blindness is when a person cannot distinguish one of the fundamental colors, red, green or violet. If a person is told to select colors resembling violet, he will if red blind usually select blues as well as violets. If he is green blind, he will select green or gray, with possibly some blues and violets of the brightest shades. Violet blindness is rare. To a red blind person the American flag appears to have green and white stripes, while the white stars appear on a violet field. To a green blind person the stripes have the proper colors, but the field for the stars is red violet. To a violet blind person the stripes are normal, but the stars appear to be set in a dark brownish gray field. To a person who is totally color blind the blue of the flag appears a light yellowish brown, while the red stripes seem to be a darker brown.

An Idol Shattered.

Some one has said that people that are fond of hero worship should never make a pilgrimage to see the hero. Here is an instance:

An enthusiastic young lady admirer called on her favorite author. In speaking of her visit she said:

"I'm sorry I saw him. He didn't look at all like an author—no long, wavy hair; no dreamy expression; no eyes fixed on the stars as if to read the secrets of the heavens; no musical, low voice—nothing to suggest the genius. No, I found him leaning on the garden gate, in his shirt sleeves, swearing at a grocery boy! And his hair was close cropped, and he looked as if he hadn't shaved in a week. He was the most terribly human specimen I ever saw."—Atlanta Constitution.

The Wickedest Bit of Sea.

Nine out of ten travelers would tell inquirers that the roughest piece of water is that cruel stretch in the English channel, and nine out of ten travelers would say what was not true. As a matter of fact, "the wickedest bit of sea" is not in the Dover strait or in yachting, for example, from St. Jean de Luiz up to Pauillac or across the Mediterranean "race" from Cadiz to Tangier, nor is it in rounding Cape Horn, where there is what sailors call a "true" sea. The "wickedest sea" is encountered in rounding the Cape of Good Hope for the eastern ports of Cape Colony.

What a Scotsman Wears.

A Scottish correspondent, signing himself "Haggis," writes to us as follows:

Dear Sir—Please state in your column that a Scotsman wears a kilt, not kilts. Thus Harry Lauder went to amuse the king clad in a kilt, not in kilts.

We regret to say that we find ourselves unable to accede to our correspondent's request. Respect for truth compels us to state that a Scotsman almost invariably wears neither a kilt nor kilts, but trousers.—London News.

Quite of Her Opinion.

"Oh, I did so want to have a talk with you! I'm simply mad to go on the stage!" exclaimed a gushing young lady to a popular actor.

"Yes, I should think you would be, my dear young lady!" remarked the great histrion.

Consistent.

"Why do you wear a yachting cap, deah boy? It's your brother that owns the yacht."

"Very true, old chap. This is me brother's cap."—Cleveland Plain Dealer.

Beauty is part of the finished language which goodness speaks.—Eliot.

900 DROPS

CASTORIA

A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS & CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

Recipe of Old Dr SAMUEL PITCHER

Pumpkin Seed -
Alx. Senna +
Rochelle Salts -
Anise Seed +
Peppermint -
Bi Carbonate Soda +
Worm Seed -
Clarified Sugar
Wintergreen Flavor

A perfect Remedy for Constipation, Sour Stomach, Diarrhoea, Worms, Convulsions, Feverishness and LOSS OF SLEEP.

Fac Simile Signature of
Chas. H. Fletcher.

In Use For Over Thirty Years

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

Pennsylvania Day at State.

Since its inception some ten years since, Pennsylvania Day has come to be the great occasion of the year at the Pennsylvania State College, second only to the commencement season. It has brought together the foremost people of the state and has called forth extraordinary addresses from men of note. Especially has the day furnished an opportunity of inspecting the college and of becoming better acquainted with its work.

November 20 is Pennsylvania Day for this year and the celebration bids fair to rival even the most memorable of past occasions. Assurances of attendance have come from from prominent men of the state. The program for the day will be arranged with the thought of conveying to the visitors some adequate conception of the daily life of the twelve hundred students. Therefore, in addition to the public meeting and addresses in the Auditorium and besides the inspection of the shops, laboratories and buildings, the regiment of college cadets will be officially inspected and a game of football will be played between the Sophomore and Freshmen teams, which is the event of the college year in athletic life.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and Anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the *system, there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Bear as Scared as Hunter.

Thomas Wilson, aged 24 of Altoona, tells a most remarkable experience he had with a bear on Brush mountain Wednesday. He started out early in the morning for pheasants and got lost. He traveled for miles, and after again getting his bearings and sat down to eat his lunch.

Then he thought he would stretch himself out for a short rest. He fell asleep, and the next thing he knew he was looking straight into the eyes of a big black bear. The animal had come upon him and was looking him over carefully, when Wilson awoke.

The hunter sprang to his feet in alarm and his sudden action frightened the bear, with the result that they fled, the one from the other, in a frenzy of fear.

To Sign Registered Mail.

Declaring that complaints continue to come to the department alleging violation of the postal regulations concerning the disposition of registered mail endorsed for delivery to the addressee in person, an order was issued by Third Assistant Postmaster General Lawshe directing that such mail must be delivered to no one but the addressee in person, not even upon his written order. If it cannot be delivered to the person addressed, it must be returned to the sender or otherwise disposed of under regulations applicable to undeliverable registered mail.

The wrapper of registered matter is required to be examined before delivery to see if it bears a restrictive endorsement, failure to notice which will no longer be accepted as an excuse.

[Copyright, 1908, by F. E. Trigg. This matter must not be reprinted without special permission.]

A GOOD ROADS BULLETIN.

Farmers' bulletin No. 321, recently issued by the department of agriculture at Washington, takes up in a complete way the subject of the split log drag which has worked such a transformation in the roads in many sections of the country. Graphic descriptions of the drag are given, while careful instructions follow telling how the drag is built and should be used. The magnitude of the good roads movement and the important part which the new drag is playing will be realized when it is known that there are in the United States 2,000,000 miles of dirt roads, the cost of the adequate maintenance of which would run from $20 to $50 per mile were the high priced ditcher with its force of men and teams employed to do the road work. Results of so definite character have been obtained that the bulletin states that the cost of maintaining the same roads by use of the split log drag and plank ditch cleaner would be but from $1.50 to $5 per mile and the job be better done at that.

The bulletin in question may be secured by any one interested in road improvement by applying to the congressman of one's district or directly to the agricultural department at Washington.

FAITH A PRACTICAL NECESSITY.

While faith in the future benefits of investments is a necessity in the case of manufacturer and of the merchant who must advertise before he will realize an increase in sales, it is especially true of the stock raiser and tiller of the soil. The former must of necessity forecast the future and have faith that money invested in high priced and valuable sires will come back to him in the shape of increased prices for the stock he is able to produce, while the latter must entertain a like faith in increased yields when he plants or sows thoroughbred and tested grains. The initial cost and outlay in both—in fact, all four instances—may seem large, but in the long view it is not so, when subsequent gains covering a period of months or years are taken into account. Many folks make a virtual failure of life in a material way, or at least plod along on a very low level of achievement, simply because this matter of initial expense or the first investment looms so large in their eyes that it obscures the view of anything beyond.

CLOVER ALONE NO PANACEA.

An important fact that is being given emphasis by Professor Cyril G. Hopkins of the Illinois agricultural experiment station is that the employment of clover in a crop rotation with corn and oats, while keeping up the supply of nitrogen in the soil through the service which the legume renders, will result in robbing the soil of phosphorus unless stock raising or dairying is followed and the major portion of the fertilizing elements in the grain and grasses fed returned to the soil in the shape of fertilizers. It will be well for those who have looked upon the growing of clover as a sort of panacea to cure the wrongs inflicted by a soil robbing system of agriculture to remember that this is only a partial remedy and must be coupled with stock raising or dairying if the cure of the soil is to be complete.

TOO STIFF A COMBINATION.

Recently there came to our notice another case of where an unsuspecting land seeker ran afoul of the combination of sleek land agent, aided and abetted by the enticing whisky bottle. The average land buyer of intelligence and backbone has about all he can attend to to hold his own when he is besieged by the persistent land agent, but when in addition to him the buyer's wits are befuddled by whisky, furnished by a disinterested (?) third party, the combination is entirely too stiff, and he might as well throw up the sponge. If there is ever a time when a fellow needs a clear head and all his wits about him it is when he is in the company of one of these unscrupulous land agents, who have the capacity to make black seem white, west east and up down.

HAS MUCH TO COMMEND IT.

If the corn field is properly fenced and proper cross fences can be erected the practice of hogging down corn already followed by some has much to commend it in localities where hog raising is an important item and where help is scarce and high priced. While it might be termed by some a lazy man's method, it has been found as a result of feeding experiments that hogs fattened under corn field conditions make a much more rapid gain on a given amount of feed than if the same is given them in the regular feed lot. An added advantage where the number of hogs fed is large is the fertilizer which has been left on the ground by the time the corn is consumed.

We know of one woman who is so particular about keeping her own premises clean that she empties her slops over on her neighbor's lot.

Under the wholesome inspiration and guidance of Secretary F. D. Coburn, Kansas stands at the head of the list of states in the production of alfalfa, which constitutes the badge of her wealth and prosperity.

A series of experiments serving to demonstrate the cost of filling silos conducted by the Illinois experiment station on ten different farms showed that it ran from 40 to 76 cents per ton, the average for all being about 56 cents per ton.

If one wishes to keep the choicest of the winter apples as long as possible under home conditions, this may be best done by wrapping carefully and storing in a cool place. If rot starts in any of the fruit, the wrapper will prevent its spreading to others.

Feeding tests show that 300 pounds of bright oat straw is equal in feeding value to 100 pounds of good timothy hay. In view of this the straw should be carefully handled and may well constitute at least a half if not more of the rough feed for horses and cattle during the winter months.

A lady friend who has good success with poultry has bought a ton of the best clover hay for her flock of light Brahma hens. She chops this up fine, soaks it in hot water and feeds it quite largely as a substitute for a grain ration. Her hens eat it up clean and seem to relish it greatly.

The most independent of all classes in a period of business depression or hard times are the tillers of the soil. In fact, a man's destitution and dependence at such times are usually in direct proportion to the gap that there is between him and the soil. It is worth while remembering that no overseer can throw the farmer out of work, for folks have to eat whether the times be good or ill.

We heard the other day of a chap who last spring moved to town so he could be handy to a booze shop. He rented his farm to a no account renter of much the same type as himself, who by the calendar plowed his corn for the first time June 20, when the weeds were fourteen and one-half inches high. It doesn't take a great amount of discernment to prophesy what the harvest will be either in case of the booze or the corn.

History records the fact that Roman farmers grew clover to enrich the soil, but supposed the benefits resulting were due to the fact that the long roots of the plant brought the fertility of the soil up from a lower stratum. Not until 1886 was the nitrogen depositing power of clover roots discovered, and this in the face of the fact that much time had been devoted in attempts to wrest this secret from nature's laboratory.

The cost of producing a 1,500 pound horse at three years old will one year with another run not far from $100. If such a horse will sell at from $150 to $200, as many have done during the past three years, the question of profit in the business of raising them would seem to be clearly demonstrated. With the increasing number of first class sires which are being used the day of the scrub horse is past. This means that better prices can be counted on from this on for blocky grade horses, which are sound and well broken.

A noted physician who is a member of the board of health of one of the larger cities urges the householders of his municipality to keep the windows and door screens on until the really cold weather of winter has set in and the flies are all dead. He points out the fact that during the fall months, when the accumulation of a season's filth and refuse breeds typhoid and other disease germs, they are extremely likely to be carried into the houses by flies, which naturally seek refuge in the warmest places they can find. The suggestion made would seem to be one which would apply equally to town and country homes.

There was recently offered for sale in a central western horse market a bunch of fifty horses, and when the sale was concluded it was stated that the price of every horse in the bunch had been cut from $25 to $50 each because of blemishes inflicted through barbed wire cuts. This is perhaps an extreme case, but it points to a condition which is all too prevalent and which costs the horse raisers of the country hundreds of thousands of dollars annually. A barbed wire fence may be a fairly safe and effective retainer for cattle, because of their more quiet and docile temperament, but it is the most expensive fencing that can be used in the case of the average high lived horse.

At the international tuberculosis congress, which was held a few weeks ago at Washington, the important point was discussed relative to the possibility of the transmission of bovine tuberculosis to individuals of the human species. While Dr. Koch of Germany was present and doggedly held to the view expressed by him some years ago that tuberculosis in cattle was not transmissible, the other delegates attending the congress voted against him almost unanimously. This will tend to confirm the view which is at present quite liberally held that for the sake of public health the dairymen of the country should have their herds carefully tested and dispose of those cows which show evidence of infection with the disease.

If one has a dairy of from twenty to thirty cows there is little question that a milking machine of some responsible make would prove both a time and money saver.

The three c's—cows, corn and clover—constitute a triumvirate of agricultural influences that mean contentment and prosperity for any section where they are duly and properly recognized.

While the state of Michigan is not a leader in stock raising, grain growing or dairying, she does lead in the production of the white bean and of celery and ranks second in the production of sugar beets.

New York ranks first both in the number and value of her dairy cows, Iowa comes second, Wisconsin third and Illinois fourth. In New York the average value of dairy cows is placed at $33.50, in Illinois at $25, while in Wisconsin and Iowa it is $30.50.

The strong flavor of several kinds of wild fowl may be reduced to a minimum by drawing carefully and just before cooking soaking for an hour or two in salt water. Until the game is drawn it will keep best by hanging in a cool place where the air is stirring.

The scrub bull is at once the cheapest as well as the most expensive animal which can be kept on the farm—cheapest because he can be had for a song and most expensive because he has few or no valuable traits to transmit to his offspring, which, like him, can only be scrubs.

If the working team which has been on a hearty ration is given a layoff it is well to reduce the bill of fare materially, especially if corn has been quite a part of it. A beef steer can stand over a corn trough all day long and experience no trouble, but it is different in the case of a horse. He is often upset if he gets just a little too much hearty feed.

Keeping the house at 68 degrees F during the winter months may seem a trifle cool at first, but when one gets used to it it is a much more wholesome temperature than 72 to 76, a degree of heat that is to be found in all too many homes. Moreover, one who breathes the cooler air in the home is much less likely to contract colds on going out of doors.

It is usually safe to buy land in sections where hard wood timber abounds and where clover and blue grass find a congenial home. They indicate fertility of soil as well as a sufficient rainfall, both of which are necessary in successful farming. Where the above evidences are lacking one may have strong grounds for suspecting that things are not as they should be and should be cautious in the making of investments if arable land is desired.

Plans for the winter care of the flock of poultry should include provision for a scratching shed in which the hens may exercise every day when the weather will permit. Scatter their grain in the litter and note the apparent enjoyment which they will get in digging it out. It will be surprising, too, how many days of the winter months they will spend in such an open shed. Exercise and fresh air together will mean more eggs as well as a robust physical condition, which will tend to ward off disease.

A winter ration for the milk cow that will answer the purpose very well is one-half pound of oil or gluten meal two pounds of ground oats and corn and two pounds of bran at a feed twice a day, the amount fed depending, of course, somewhat upon the assimilative capacity of the cow and the amount of her milk flow. Added to this she should have as much bright clover or millet hay as she will eat, corn fodder or ensilage if it is available, salt where she can have it when she wants it and clean, pure water at least twice a day.

It is a rule generally accepted by raisers of cattle and hogs that to realize a fair profit from his efforts the farmer should receive as many dollars per hundredweight for his beef and pork as the corn fed is worth in dimes. In other words, thirty cent corn should not be fed to stock which does not fetch as much as $3 per hundredweight, while to justify the feeding of fifty cent corn the feeder should get $5 per hundredweight or better. With corn as high as it is today and likely to go higher, the rule above referred to is one that should be taken into careful account.

It is always a disappointment to the passerby as he views the farm premises to see things about the place wrong end to—a lot of slovenly willows in the front yard, where the lawn ought to be, and the area used as a runway for pigs, ducks and chickens and a harbor for all kinds of played out machinery instead of being fenced off and devoted to shapely trees, flowers and shrubs. We noticed two such contrasts recently, and the difference was most striking. In a large sense the farm which was slovenly kept was little more than a roosting place, and it is fair to assume that as soon as the boys and girls who are reared in it get old enough they will dig out for more attractive quarters, if they have not already done so, and there will be little ground to blame them. There should be more homes and fewer roosting places.

†Week Days.

W. H. GEPHART,
Gen. Superintendent.

A Jewelers Experience

C. R. Kluger, The Jeweler, 1000 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can not attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed. Sold by C. M. Parrish.

No one is immune from kidney trouble, so just remember that Foley's Kidney Remedy will stop the irregularities and cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Sold by C. M. Parrish.

"Here's to your health and happiness" DeWitt's Little Early Risers—famous little pill. Nasty, sick headache or biliousness may come on any time; the cure is an Early Riser. Sold by Green's Pharmacy

Lax-ets 5 Sweet to Eat A Candy Bowel Laxative
J. ZELLAR & SON.

As Others See Us.

"Mem-sahib," asked a young East Indian girl of her English mistress, "why do you wear those sad colors? I don't like them."

"I am in mourning, Lattoo. It is the custom of English ladies."

"But black is the color of night, mem sahib, and yet you believe that when you die you go to heaven at once. Then why not be glad for your friends who die and wear colors such as we see in birds and flowers and falling water when the sun shines? God doesn't make your colors. Ah, well, Christians are strange people!"—From "The Indian Alps."

A Woman's Country.

The Frenchwoman may not be so classical in form or outline as many of England's beautiful women, but she has undoubtedly the gift of charm, and by virtue of this elusive, tantalizing quality she has for centuries bewitched and enthralled all the men of her country. France today is the most woman ridden country and also the most peaceful, prosperous and contented. The women rule by charm.—Stormy Petrel.

The Old Master.

Mistress (to new servant)—I must impress upon you, when you go to the dining room, not to try to get the dirt off the 'Old Master' with a wet rag, but use a dry, soft cloth only. Servant—Mercy on us, marm; be I to wash the master?—London Tatler.

Pink Pain Tablets—Dr. Shoop's—stop Headache, womanly pains, any pain, anywhere, in 20 minutes sure. Formula on the 25c. box. Ask your druggist or doctor about this formula—it's fine. Sold by Zeller and Son.

Wood's Liver Medicine
(In liquid form, pleasant to take)
For Chills, Fever and Malaria
Headache, Biliousness, Constipation and all other symptoms of deranged Liver quickly overcome. A tonic to the entire system,
Liver, Kidney, Bladder and Blood

HAIR TONIC
will make your hair heavy and lustrous, and keep it in fine healthy condition.
Try this celebrated French hair dressing, and see how quickly your hair improves.
Ed. Pinaud's Lilac Vegetal
is the best perfume for handkerchief, atomizer and bath.
Ask your dealer for this delightful perfume. Try it yourself—you will then know why it is the best selling perfume on the market.
Send 10c. for sample of either of these preparations.
PARFUMERIE ED. PINAUD
ED. PINAUD BLDG. — DEPT. M 15 — Fifth Avenue, New York.

Kleinert's DRESS SHIELDS
THE GEM — DOUBLE COVERED
FEATHER WEIGHT — WASHABLE
JUNO — ODORLESS NO RUBBER
Every pair of Kleinert's Dress Shields is warranted. When properly used, we will not only refund money paid for shields that are not perfect, but will hold ourselves responsible for any resulting damage to gown.
Kleinert's Dress Shields are made in ten sizes, from size 1 to size 10. If your dealer does not keep the kind or size you want, send us 25c. for sample pair of either kind in size 3. If you want a larger size, add 5c. for each additional size.
Send for our Dress Shield Book.
It is worth reading. Sent free on application.
I. B. KLEINERT RUBBER CO.
721-723-725-727 BROADWAY, NEW YORK.

W. B. Reduso CORSETS
The Perfect Corset for Large Women

It places over-developed women on the same basis as their slender sisters. It tapers off the bust, flattens the abdomen, and absolutely reduces the hips from 1 to 5 inches. Not a harness—not a cumbersome affair, no torturing straps, but the most scientific example of corsetry, boned in such a manner as to give the wearer absolute freedom of movement.
New W. B. Reduso No. 770. For large tall women. Made of white coutil. Hose supporters front and sides. Sizes 20 to 36. Price $3.00.
New W. B. Reduso No. 771. Is the same as No. 770, but is made of light weight white batiste. Hose supporters front and sides. Sizes 20 to 36. Price $3.00.
New W. B. Reduso No. 772. For large short women. The same as No. 770, except that the bust is somewhat lower all around. Made of white coutil, hose supporters front and sides. Sizes 20 to 36. Price $3.00.
New W. B. Reduso No. 773, is the same as No. 772, but is made of light weight white batiste. Hose supporters front and sides. Sizes 20 to 36. Price $3.00.
Ask any dealer anywhere to show you the new W. B. "hip-subduing" models, which will produce the correct figure for prevailing modes, or any of our numerous styles which are made in such a variety as to guarantee perfect fit for every type of figure.
From $1.00 to $3.00 per pair.
WEINGARTEN BROS., Mfrs., 377-379 BROADWAY, NEW YORK

CHARLE C. TUTEN,

EDITORIAL.

THE man with the revolver seems to be very much in evidence these days.

THOSE who are agitated over Mr. Taft's religion should read the constitution.

THE stock markets are decidedly more active than they were one year ago.

WHILE some cases of suicide are the result of insanity, some come as the end of a life of crime.

PRESIDENT-elect Taft has stated his intention to call a special session of congress as soon after his inauguration as reasonable.

AFTER all the re-election of Governor Hughes in New York means that the best way to win in politics is simply to do right.

THE latest mine horror in Germany has desolated many homes and once more emphasized the fact that our comfort is too often won by the sacrifice of precious human lives

AT the recent election in Illinois a proposition to borrow $20,000,000, to provide a 14-foot channel from Chicago to the Mississippi river, was submitted to the people and carried. Aside from any question of the wisdom of the scheme, the people of that state have at last shown a disposition to do their part of the work without calling on the general government for assistance as is generally the case.

ALL who are interested in a rapid return of the better days should not forget that each individual contributes his share either to the gloom or sunshine of life in proportion to the use he makes of his opportunities. *I*t has been said that one cheerry optimist can change the gloom of an audience, and every one who is disposed to help along the return of normal conditions should remember that the obligation rests upon each to do his or her part.

THE trade and commercial agencies are of one mind respecting the substantial and increasing activity in all branches of business. Trade newspapers and journals also agree that the depression is at an end, and that there will be a continued and steady industrial rehabilitation. The prospects are that 1909 will be one of the most successful business years in the history of the country. There is an optimistic feeling abroad that is very pleasing, and it applies along all lines of activity.

THE emperor of China, whose death was announced Saturday morning was a mere child when the strong empress dowager placed him upon the throne, and from the beginning of his reign until its close, he was ruler in name only. A far more serious death is that of the empress dowager, who since closed her remarkable career. She was in many respects the most remarkable woman of the age and ruled the mighty Chinese empire with a rod of iron for many years. It is intimated that her death will be the signal for a general revolt against the Manchu dynasty and the inauguration of a new order of affairs In all probability the decision of the matter will not be long delayed.

IN perhaps the most remarkable session of the German Reichstag ever held the Deputies delivered a symposium of adverse criticism of Emperor William which amounted in effect to a public reprimand of the Emperor for the indiscretions of his recent interview in a London newspaper, in which he put the German Empire in the position of deliberately preparing for hostilities with England. It is quite evident that the German people are of the opinion that if popular government is in order in Turkey and Russia it certainly is in order in enlightened Germany.

THAT cigarette smoking will sooner or later later kill or make idiots of young boys is known by physicians, but despite all the warnings which have been issued the boys will continue to use the deadly things until more drastic laws regulating their sale and use should have been passed by state legislatures. The cigarette smoking boy may be picked out from among his fellows without much difficulty. The boy who uses cigarettes displays the evidences of his weakness in his every look and action. He is a sufferer from diseases of the body and mind and in time becomes an imbecile.

THE taking off of ex-Senator Carmack of Tennessee at Nashville on Monday has created a national sensation, naturally. There is widespread denunciation of his slayer and demand for exemplary punishment. But even though the dead man was an editor, and appalling as the shedding of a fellow being's blood is to all refined natures, it is as well not to be too hasty is one's judgment nor too precipitate in prophecying the verdict of the jury which will be called on to pass upon the case. There are many things that will have to be considered many of which will be in favor of the living and many that will be evidence for dead.

At a meeting of the state live stock sanitary board it was decided to slaughter immediately all the cattle now affected and to slaughter any other cattle as soon as they are discovered to have the foot and mouth disease.

At present, about 250 cattle are affected. The law provides that when diseased animals are slaughtered the state is to pay $50 per head for registered stock and $25 per head for un-registered stock. If the cattle now affected are non-registered, the bill for killing will be $8,550. It may run to any sum to twice that amount, dependent upon the number of registered animals

A GRATIFYING report from Colorado is that of the re-election of Judge Lindsey, the originator of the Juvenile court in spite of a formidable combination against him. *I*t appears that the Republicans and Democrats ignored his invaluable service to childhood and parenthood and misjudged the hold he had upon popular favor. Each of the parties nominated a regular candidate, but the judge entered the contest as an independent and the campaign was waged with particular fervor. Women and children solicited money to offset the corrupt practices by which it was intended to bring about his defeat; personal appeals were made by the earnest workers and prayers were offered up in the churches. The judge came out of the contest triumphantly, with a majority of ten thousand.

Basketball Schedule.

Manager Lindemuth of the State College basketball team has arranged the following schedule for the season, subject to being ratified by the faculty:

Dec. 11—Harrisburg A. C. at State.
Dec. 14.—Open away from home (either Navy, John Hopkins or Dickinson will be taken on.
Dec 15—Pennsylvania at Philadelphia
Dec. 16—George Washington University at Washington, D. C.
Jan. 15—Wyoming Seminary at State.
Jan. 30—Bucknell at State.
Feb. 3—Allegheny at State.
Feb. 6—Franklin and Marshall at State.
Feb. 15—Pittsburg Collegians at State.
Feb. 19—Swarthmore at State.
Feb. 20—Bucknell at Lewisburg.
Feb. 22—West Point at West Point.
Feb. 23—Manhattan at New York city.
Feb. 24—Swarthmore at Swarthmore.

Blunders of the Types.

Ever since the introduction of typesetting errors, weird or comical, have emanated from printers' offices. The mistakes are not always to be shouldered on to the compositor, for bad handwriting must be taken into account. Here are a few instances of actual blunders collected by a proofreader in the course of his daily work:

"His blushing bride" was transformed into "his blustering bride."

A major was stated to have "served with destruction in the army." The writer thought he used the word "distinction."

"The Galley I Love" was the description of a picture entitled "The Galley Slave."

Speaking of theatrical folk, a critic wrote that "nearly all have husbands or wives." The paragraph printed read "hundreds of wives."

"They sailed for three days around the cape and finally slaughtered a small Italian" should have been "sighted a small island."

One more in conclusion. "He takes delight in talking on his family shame" was a shameful thing to say when "favorite theme" was meant.

A Three Legged Bison.

In 1867 Small Eyes, a Blackfoot who had come down from the north and joined the Arapahoes and lived with them, told Black Kettle, a Cheyenne in George Bent's lodge, about having killed, between the Cimarron and Beaver creek, a tributary of the north fork of the Canadian, a buffalo bull which had only one hind leg. According to Small Eyes' story, it did not appear that the bull had lost one of its hind legs, but rather that it never had had more than one. The hind leg was very large, seemed to be in the middle of the body instead of at one side, and there was no sign of any missing leg. It looked as if the two hind legs which the buffalo ordinarily has had in some way fused together.

The war party with which Small Eyes was traveling was passing along near a hollow when the bull came up out of it, and some of the men ran ahead, got around it and shot it with a gun. It was not able to run fast, but rather hobbled along.—Forest and Stream.

Saved by a Photograph.

A very remarkable incident occurred at Rio de Janeiro.

A passenger on board one of the large liners took a photograph of the harbor. It included a small yacht which had sailed in the morning with two men in her, but returned in the evening with one only. The survivor said his companion had fallen overboard, but his statement was not believed. He was tried and sentenced to death. The matter had by this time come to the ears of the photographer, who remembered that the picture had been taken on the day of the "crime" (or accident) and that the scene embraced a yacht. On examining the print more carefully he noticed a small speck on the sail and in order to determine what it was had an enlargement made. It proved to be the figure of a man falling. It was shown to the authorities at once, and the condemned man was released.

Dropsical Oysters.

With a sneer the oyster opener pointed to a brownish smear upon a Saddle Rock shell.

"Some fool," said he, "has been trying to fatten up a batch of Saddle Rocks with cornmeal. You might as well try to invigorate flowers with corned beef hash. But it is a common error to believe that cornmeal or oatmeal will fatten oysters. I continually find oysters with their shells stained with those grains. It makes me laugh. As a matter of fact, there is no such thing as fattening oysters. All you can do is swell them up with water, precisely the same as water swells a sponge. You put them in fresh water, which, being less dense than the soft they are accustomed to, by the principle of osmosis penetrates and distends their tissues—gives them, as you might say, dropsy. For my part, I don't like fattened oysters."—New Orleans Times-Democrat.

For a Bride's Dowry.

There is a very pretty custom in some of the northern parts of Europe. There the white poplar in good soil increases a shilling in value every year. The trees are generally cut down at the age of twenty years, as they are then supposed to have attained their full growth. When a daughter is born in the family of a well to do farmer the father as soon as the season permits plants a thousand young trees, and these are to constitute the dowry of the maiden, "which grow as she grows and increases in height and value as her virtues and beauty increase."

Out to Work.

"What society needs is a clearing house."

"What do you mean?"

"I wish I didn't have to go to the Van Squawks' ball next week. The Van Squawks wish they didn't have to ask me. Why can't we exchange certificates and call the thing even?"—Kansas City Journal.

Why He Barked.

A witness in an Irish court talked so loud that Charles Philips, who was counsel on the other side, said, "Fellow, why do you bark so furiously?"

"Because," said the man, looking hard at Philips, "I think I see a thief!"

Retribution.

Tommy—Pop, what is retribution? Tommy's Pop—Retribution, my son, is something that we are sure will eventually overtake other people.—Philadelphia Record.

COMELY MATRONS PRAISE PERUNA

KENTUCKY
OREGON
OHIO.

The only valuable testimony which any household remedy can have is the testimony of those who have used it. It is worse than useless to discuss Peruna from a theoretical standpoint. It is what Peruna will do, not what people say about it, that constitutes evidence. The housewives of the United States know what Peruna will do. They have tried it. They have realized its benefit in the family. They are the ones that are competent to speak of it. Self-appointed critics know nothing of it whatever.

The Testimony of These Three Housewives Demonstrates Beyond All Cavil That Peruna is a Safe and Useful Remedy.

Gained Flesh on Peruna.

Mrs. Hattie Hamilton, R. F. D. No. 2, Sparta, Ky., writes:

"I have taken two bottles of Peruna and commenced on the third one. I did not really need the third one, but thought it best to take another bottle.

"I have always weighed 102 pounds, but since I began taking Peruna I weigh 120, for the first time in all my life, and I am now thirty-three years old. Your medicine has surely done me a great deal of good, and I have recommended it to several others who have begun taking it.

"My mother, who is seventy-six years old, had grown so weak she could scarcely walk. She took two bottles of Peruna and is fleshier and looking well."

Internal Catarrh.

Mrs. M. F. Jones, of Burning Springs, Ky., writes:

"No family should ever be without Peruna, for it is an unfailing cure for colds, and it is an excellent remedy to prevent and relieve croup.

"And to speak from a standpoint of experience, I can candidly say that it is the remedy for internal catarrh. I shall not hesitate to recommend it, especially to all suffering women.

"Peruna has gained full confidence and a permanent stay in our home."

Constipation, Torpid Liver.

Mrs. Anthony Rauch, 306 N. Walnut street, Bucyrus, O., writes:

"I was suffering from obstinate constipation and torpid liver, when I took your advice and purchased six bottles of Peruna and Manalin. When I had taken only one bottle I felt much better, and since I have taken two more bottles I feel entirely well, but I will continue taking the medicine for a short time to make sure of my cure.

"I think Manalin is one of the finest remedies for constipation that I ever tried. I will never be without it. It has made me so strong. I can do a day's work and never tire. I am so glad I do not get those dizzy spells any more. I haven't had one since I took your medicine.

"I cannot thank you enough for what your medicine has done for me. All sick people should give it a fair trial."

Kidneys and Bladder.

Mrs. Gus. H. Carlson, Box 201, Ortonville, Minn., writes:

"I had catarrh of the kidneys and bladder. I have taken Peruna until now, and I do not think I need to take it any longer.

"I feel well, and my tongue is clear, and I have no bitter taste in my mouth. I am very thankful for Peruna."

Peruna Their Family Medicine.

Mrs. Anna C. Hyde, 712 E. Yamhill street, Portland, Oregon, Vice President Literary and Educational Organization of New Hampshire, writes:

"I am pleased to endorse Peruna as an all-round good family medicine, and one that is safe to give children. I give it to mine at the least suggestion of a cold, and take it myself to build up my strength and nerves.

"My sister, who is living with me, uses Peruna, too, and she is loud in its praises.

"Your medicine is certainly worthy of praise."

Backache, Headache.

Mrs. Tressie Nelson, 609 N. Fifth Ave., Nashville, Tenn., writes:

"As Peruna has done me a world of good, I feel in duty bound to tell of it, in hopes that it may meet the eye of some woman who has suffered as I did.

"For five years I really did not know what a perfectly well day was, and if I did not have headache, I had backache or a pain somewhere and really life was not worth the effort I made to keep going.

"A good friend advised me to use Peruna and I was glad to try anything, and I am very pleased to say that six bottles made a new woman of me and I have no more pains and life looks bright again."

Catarrh of Bowels.

Mrs. Maggie Durbin, 1332 North street, Little Rock, Ark., writes:

"I was troubled for five years with a chronic disease. I tried everything I heard of, but nothing did me any good. Some doctors said my trouble was catarrh of the bowels, and some said consumption of the bowels. One doctor said he could cure me. I took his medicine two months, but it did me no good.

"A friend of mine advised me to try Peruna and I did so. After I had taken two bottles I found it was helping me, so I continued its use, and it has cured me sound and well.

"I can recommend Peruna to anyone, and if anyone wants to know what Peruna did for me if they will write to me I will answer promptly."

The Youth's Companion Calendar.

"In Grandmother's Garden" is the title of the beautiful picture painted by Charles C. Curran for The Youth's Companion panel Calendar for 1909. It is printed on the finest finished stock, by the most recent methods of lithography. All the strength and beauty of the original painting are faithfully shown by employing thirteen separate colors. This is the largest Calendar that The Companion has ever issued, the picture alone measuring 8 inches in width and 24 inches in length. Below the picture are arranged the twelve months. Great care has been taken to make the date figures legible, and to insure a practical and useful, as well as an artistic, Calendar. The Calendar is given to all those who pay their subscriptions to The Companion for 1909.

Rheumatism

Do you want to get rid of it? If so, take Dr. Miles Nervine modified as directed in pamphlet around bottle. In addition to the direct curative properties it has a soothing effect upon the nervous system by which the rheumatic pains are controlled, and rest and sleep assured. It has made many cures of this painful disease, some of them after years of suffering. If it will cure others why not you. If your case is complicated, write us for advice, it costs you nothing and may save you prolonged suffering.

"I was so crippled that I could scarcely walk. After having my shoes on for an hour or two I could manage to walk by suffering the pain. Then I began to have pains all through my system. My doctor told me I had an acute attack of inflammatory rheumatism. I read about Dr. Miles' Nervine, bought a bottle and I commenced to get better from the start and for the past six months have scarcely any pain, and am able to walk as well as ever."

JAS. H. SANDERS,
P. O. Box 5, Rockaway, N. J.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

Butchering Season.

The sharp sting of these brisk fall mornings warns us that the butchering season is fast approaching and that the days of the fat porkers are numbered. In the country districts this day is looked forward to as one of the big days of the fall season. There is not a grower of the porkers but what takes pride in having them large and fat by the time the killing season arrives and the good corn crop this year gives promise that there will be some heavyweights to be killed. In anticipation of lots of fun and plenty of good things to eat on butchering day there is always plenty of help and the present day machinery takes the old time drudgery out of the work and adds to the fun of the occasion. The squeal of the porkers on a cold morning reminds us that another neighbor is about to fill his larder with a good supply of meat for the winter and that there will also be plenty of sausages and liverwurst for the buckwheat cakes, lots of spec to boil with the beans and cabbage and spare ribs and backbone a plenty to cook with the savory German delicatessen, sauer kraut, a good supply of which has been ripening for the past month.

Who cannot recall the greasy and black faces of the maids and lasses of days gone by, the big chicken, duck or goose roast and good things to eat without end. Then following the butchering season comes the doughnut season when grandmother always had a bountiful supply on hand for her numerous progeny. Yes, this is a great day among the country folk and we are looking forward to one or more days this fall when we can get in our hand, at least at the table if not in the butchering.

Robert H. Duncan.

Robert H. Duncan, a former resident and business man of Centre county, died at his home in Washington, D. C. Wednesday morning after an illness of about one week.

The deceased was born at Spring Mills, this county, May 1, 1831, and was aged 77 years, 6 months and 10 days. For many years he conducted a general merchandising business in Spring Mills He was a resident of Philipsburg for about eight years and had many friends in the county who regret to hear of his death. Surviving him are his wife, two sons and one daughter, viz: D. Wallace, of Washington; A. H. of Philipsburg, and Mrs. E G. Kennedy, of Sioux Falls, S. D.

The funeral took place this afternoon nd interment was made at Milton.

A Touch of Winter

While "old probabilities" have been guessing as to whether we were going to have a cold or a mild winter they did not attempt to say when it would begin. Although it is over a month until winter begins by the calendar we got our first instalment Saturday and are led to believe that it will be severe enough. It was the opinion of many Saturday morning that snow would fall before night, although the weather reports did not call for it. Anyhow it came and a nice little snow it was, at least enough to get out the shovel brigade to clean the sidewalks. Several persons ventured out Saturday evening in sleighs to enjoy the first ride of the season. Sunday was a real winter day, the air being cold and bracing all day and even the rays of the bright sun did not smile very warm upon a person. Many people are apprehensive of winter setting in before we had sufficient rain to replenish the springs and streams, but there will probably be enough warm weather to melt this snow before the winter season and it will greatly aid the districts afflicted with a water shortage.

Hunters who went forth this morning rejoiced in the fact that they would have a tracking snow. This will greatly assist them in hunting deer, as dogs are not permitted. The boys and girls are also rejoicing as the winter sports approach and replace those of summer. The thermometer registered only four degrees above zero this morning.

Young Man Disappeared.

Most mysterious is the disappearance of William Harris, of Brockwayville, a young man well known in horse circles all over this section as "Sears Robuck," who has not been definitely seen or heard of since last Sunday morning at 3 o'clock. At that time Mr. Harris left Quay Camp near Sandy Valley to which place he had driven with Thomas Mitchell and Audley Meyers, and although several times he has been reported to have been seen the clues upon being carried up proved to be unfounded.

At 10 o'clock Sunday morning the team which he was driving was discovered at the bottom of a caved-in mine in the public road about a mile from Quay Camp, by Jacob Boyer, who lives in that vicinity.

Neuralgia and Rheumatic Pains yield quickly to the influence of Dr. Miles' Anti-Pain Pills. No bad after-effects.

Correspondence.

Pine Glenn.

What was more beautiful than mother earth covered with six inches of snow on Sunday morning.

The Lewis Hunting Club left on Saturday morning for Fields Run, where they will tent during hunting season

George Unruh of Philadelphia spent a week with James Sankey here hunting for small game of which he was very successful. He departed on Friday for Lycoming County where he will spend a week hunting for deer and wild turkey before returning home.

Mrs. Nick Vallimont spent Sunday with her sister Mrs. Ickly of Altoona.

Roy Lewis made a business trip to Snow Shoe on Saturday.

Hayes Mederith of Moshannon spent Saturday in the Glenn.

James Sankey who has been visiting at home returned on Friday to Trout Run where he is employed as blacksmith.

Carlie Smith of Graphan is visiting at home.

Walter Harris of Woodland Sundayed at S. S. Smith.

George Daugherty says, "He would rather clerk in the store than teach school." What's the attraction George?

Clair Lewis was a Clearfield visitor last week.

William and Arthur Lewis of Jersey Shore joined the Lewis Hunting Club on Saturday at Field's Run.

The Laurel Run school was closed last week on account of the teacher Miss Loy being on the sick list.

On Monday morning of last week about 3.30 the home of M. F. Loy was burned to the ground. Part of the household goods were saved. This is a severe shock to Mr. Loy as he just purchased and remodeled this fine home a little over a year ago. It was known as the property of James K. Boak deceased, and a beautiful land mark of the Glenn. It is estimated that the insurance will not cover the loss. They have the sympathy of the entire community.

Millheim.

Snow to the depth of 4 inches fell last Saturday.

B. D. Tate and W. H. Crose of Bellefonte, employees of the Pennsylvania Telephone Co. were in town recently.

John F. Davis of Baltimore, D. D. Traymire and L. C Crowe of Williamsport, John P. Hill of Wilkesbarre, Grant Charles of Boalsburg, registered at the National one day last week.

Corly Plotts of Williamsport was in town last week.

M. G. Wenrich and C. F. Crossgrove of Lauralton transacted business here recently.

E. D. Allbright of Lewisburg shook hands with his friends here last week.

The public sale of Mrs. Breon on last Saturday was slimly attended.

Joe W. Davidson of Philadelphia called on our merchants recently.

H. Clevenstine and M. C. Levi of Bellefonte were here on business recently.

Ex-Sheriff Cyrus Brangard of Centre Hall was here last week looking after his business.

A. W. Musser of Beaver Springs transacted business here a few days ago.

H. M. and Ray Fleming of Readeville were here last week looking for horses,

E. C Shoch of Philadelphia agent called on T. E. Mayes recently.

On last Monday afternoon, W. A. Tobias met with an accident which might have resulted in loss of life. He was on the stable loft, and by some means fell through the hatchway to the hard board floor below about 8 feet. He fell on his right side; had he fallen head down, he no doubt would have broken his neck. He is considerably bruised and his right arm and right leg is swollen very much. It will take months to heal, as he is near 76 years old.

Snow Shoe Township

Wesley Bicket's attended a dance at Philipsburg Saturday night.

Wm. Houston went to Winburn Saturday.

Charlie and Harry had a lively time in Snow Shoe Saturday night.

Ethel Meredith of this place is now working in Bellefonte.

Allie Houston made a trip to A. L. Craft's Sunday night.

Rev. Penny visited at Rev. Merediths.

Mary Davis and Nellie Fye of Moshannon made a trip to Geo. Quick's one day last week.

Miss Nora Eidell and Harry Snyder, formerly of Snow Shoe spent a few days in Snow Shoe and Gillentown recently.

Robert Eidell of Kane is spending a few days at the home of his father-in-law Wm. Quick.

Mrs. A. Gulliver of Kane spent a few days at the home of her father Wm. Quick, in Post Hollow.

Mr. Kester operator at "Rock Run" is boarding at A. L. Craft's.

Mr. Dale Musser, the Starr school teacher spent a few days at his home in Millheim,

Thomas Walker is now driving the stage from Snow Shoe to Moshannon.

Clayton Watson after spending a week in Buffalo has returned home.

Dr. Miles' Anti-Pain Pills stop pain in just a few minutes. Sold by druggists everywhere, 25 doses 25c, not sold in bulk.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headach, biliousness, or torpid

liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combing certain medicinal principles from native roots, taken from our American forests he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion torpid liver or biliousness, and kindred derangements,

Did the Best He Knew.

Geordie Horn was a character well known among the country folk of the Scotch highlands twenty-five years ago. He belonged to a class rather hard to classify, for he was neither a tramp nor a farm hand, although frequently following the habits of both. Wandering from farm to farm, the greater part of the time he was kindly treated and hospitably entertained generally. While he was a man of unusual strength, he was mentally weak and exceedingly lady.

"He's a gie cute chiel, though slow in the uptack" (understanding), was the way a good many described him.

One day he arrived at his friend the doctor's and complained of a severe pain in his breast. The doctor handed him a plaster, with instructions to put it on his chest without delay. Geordie gave him one of his knowing looks and took his departure. The doctor met him a few days later and inquired how he was feeling now. Geordie replied, "Nae better." "Did you do as I told you with the plaster?" the doctor went on.

"Weel, no, not exactly. I done the best I could. I didn't have a chest, sae I stuck it on my bandbox" (hat box).

An Expensive Dollar.

Not long ago in this town a kind friend of the family gave one of the kids a dollar. Of course it was too much to let the kid get out and spend for candy and gum, so it was religiously put up on the sideboard or some other safe place to be kept—just for what the deponent saith not. In about a week the juvenile owner of the big round coin remarked at the breakfast table, "Papa, mamma spent my dollar yesterday." The head of the house took the hint and fished up another dollar, which, like its predecessor, was placed in a good safe place to keep.

During the next month by a carefully tabulated record which he kept on his cuff he repaid this elusive dollar just thirteen times. So at the end of the month you will not be surprised to learn that our friend sent the donor of the original dollar this curt note:

Dear Sir—Inclosed you will find a check for $1. It's the dollar you gave our youngster. I return it simply to avoid bankruptcy. Already it has cost me somewhere between fifteen and twenty.

—Lamah (Mo.) Democrat.

Dollar Fish.

"Have you any dollar fish here?" a woman asked of one of the attendants at the aquarium.

While the question may seem curious, it was really very simple, for the dollar fish is only a young moonfish.

The moonfish is a curious but beautiful creature, almost round in shape and extremely thin and having the loveliest of pearly sides. It swims on edge, so that it always presents its sides of pearl to view. It takes its name from its shape and because, further, in color it suggests the silvery moon.

Young moonfish of the size of a standard silver dollar—and they are scarcely any thicker—are called dollar fishes because of their resemblance to that coin in size and shape and color, and the woman making the inquiry about dollar fishes was duly informed that there was none in the tanks at the present time, but that they did have them occasionally.—New York Sun.

Three Sabbaths Each Week in Tangier.

Morocco is a country of many Sabbaths. The first three days I spent in Tangier were all Sabbaths. Arriving on a Thursday night, the next day was Friday, the Mohammedan Sabbath, which was followed by the Jewish Sabbath—the Hebrew element in Tangier is considerable and strict in religious observance—and that in turn by the Christian Sunday. Subsequent comparison, however, revealed little difference between any days of the week. On the Mohammedan Sabbath a black flag is hoisted on the minarets at the prayer of dawn, instead of the white flag that announces the time of devotions on other days. It remains up until the middle of the forenoon, by which time everybody is supposed to have found out what day it is.—New York Post.

The Word "Charlatan."

"Charlatan," says a writer in the London Chronicle, "is companion to 'quack' in our vocabulary, and of this word the origin is certainly Italian. It is 'ciarlatano,' merely a chatterer, and describes the traveling doctor in his cart who used to offer in an overwhelming torrent of talk his pills to villagers in the market place. He was a dentist as well as a physician and wrenched out the tooth in public. The genus is not yet entirely extinct."

A Word Breaker.

"Fine looking old gentleman."

"Yes, but he was never known to give a man his word that he did not break it."

"Dishonest, eh?"

"Nope; he stutters."—Houston Post.

Dignity and Ignorance.

"So you have decided to call in another doctor?"

"I have," was the reply. "The absurdity of the man prescribing linseed tea and mustard plasters for people of our position!"

A Noble Parent.

In writing a sketch of Washington a pupil ended her essay by saying, "Washington married a famous belle, Martha Custis, and in due time became the Father of His Country."—Delineator.

Kind words are benedictions. They are not only instruments of power, but of benevolence and courtesy, blessings both to the speaker and hearer of them.—Frederick Saunders.

Mrs. Zeb [illegible] was making [illegible] in Mexico.

[illegible] were removing the earth some distance from the point of excavation in the customary manner—that is, on a piece of canvas cloth tied between two poles, together fashion, carried by two Indians. This method seemed perfectly absurd to Mrs. Nuttall, so she ordered several iron wheelbarrows from the city. When they arrived she turned them over to the foreman after explaining to him what they were for and how to use them.

Next day when she visited the work the Indians had discarded their primitive parihuelas and were using the bright new wheelbarrows. As each barrow was filled with earth it was picked up by two Indians, one using the handles and the other the wheel, and carried to the place where the earth was to be deposited. All efforts to get the Indians to use the wheelbarrows properly failed, and they kept on carrying them until the work was finished.

Alphabet of the Playhouse.

"We keep learning things all the time," said an infrequent theater goer. "I stopped in front of a theater the other day to buy a ticket of a speculator, and I asked him if he had a good single near the front.

"'Here's one in O,' he said, 'thirteenth row, third seat from the aisle.'

"Now, you know, I don't carry the relative positions of the letters of the alphabet in my mind all the time. I have to work for a living and have other things to think of. But it struck me that O must be farther down the line than thirteen, and so I just counted up the letters on my finger tips, and I made O come fifteenth, and I said so to the ticket man, but that didn't worry him any.

"'There's no A in this theater,' he said, 'and there's no I in any orchestra in town.

"And, having my finger tip figuring thus handily knocked out, I bought the ticket."—Washington Post.

The Surprise of Slivnitsa.

"I have never quite made out," says a writer in "Near East." "why the plain of Slivnitsa has come to be regarded as the scene of one of the great decisive battles of the world's history. It did not even decide the Servo-Bulgarian war in 1885. That was decided by Austria intervention. The battle of Slivnitsa is really only remarkable for the comical fact that both sides thought they were defeated, and while Milan of Servia was hurrying home in confusion Alexander of Bulgaria galloped all the way back to his capital before he learned that the tide had turned. Nowadays the village looks sleepy enough, poor and dirty, like most Bulgarian villages, but almost gay when the sun shines upon its red roofs."

Harsh Music.

The politician caught with the goods was counseled by his friends to stay and face the music.

For an instant he listened to the clamor of denunciation.

"Great Scott," he exclaimed impatiently, "do you call that music?"

A moment later he was out of hearing.—Philadelphia Ledger.

Chinese Athletics.

The Chinese have always had athletic exercises of a sort in which they have rather prided themselves, though none ever seem to have taken such a hold on the nation as ours have on us during the last century or so. They have plenty of stories of strong men capable of wielding extraordinary weapons, of bending wondrous bows or of lifting heavy weights, etc.

Even within the last few years feats of archery were done before an officer could get his commission in the army, and in almost any village there is a bamboo with a pierced stone at either end to test the strength of the rising generation in lifting. But there was nothing of regular athletic training, except for a few wrestlers perhaps, before foreigners came.—Shanghai Mercury.

Not a Bargain.

"Do you think that Miss Kidder was having fun with me?" asked Chawlie.

"Well, old chap, give me the details," was Awthur's response.

"You see, I had my bull terrier with me, and I said to her, 'That dog knows as much as I do.' And she said, 'Don't you think $4.50 was too much to pay for him?'"—Cleveland Leader.

An English Author Wrote

"No shade, no shine, no fruit, no flowers, no leaves,—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh, and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's greatest Medicine for America's Greatest disease—Catarrh.

Wanted: Representative for this territory to sell best automobile on the Market. Will furnish catalogue, etc., and take Demonstrating car from Pittsburg for examination. Prices $2500 to $3000 40 to 50 H. P For further information address box 1076, Pittsburg, Pa. 2t.

Mason, containing 70 acres; another thereof surveyed June 18, 1863, on a warrant dated May 19, 1863, granted to George D. Hess, as containing 170 acres and 150 perches; another thereof surveyed Dec. 18, 1861, on a warrant dated Nov. 17, 1860, granted to James A. Quigley, containing 17 acres; another thereof surveyed Sept. 5, 1794, on a warrant dated April 18, 1794, granted to Hugh Dalton, as containing 434 acres; another thereof surveyed Sept. 6, 1794, on a warrant dated April 15, 1794, granted to George Dalton, as containing 434 acres; another thereof surveyed Sept. 6, 1794, on a warrant granted to James Dobson, dated April 15, 1794, as containing; another thereof surveyed Sept. 6 1794, on a warrant granted to Samuel Dobson, dated April 15, 1794, as containing 434 acres; 434 acres, another thereof surveyed Aug. 21, 1794, on a warrant dated April 29, 1793, granted to George Eddy, as containing 433 acres; another thereof surveyed June 14, 1850, on a warrant granted to Jas. T. Hale dated May 29, 1850, as containing 433 acres and 153 perches, another thereof surveyed Aug. 18, 1794, on a warrant granted to Benjamin R. Morgan, dated April 29, 1793, as containing 434 acres and 163 perches; another thereof surveyed June 15, 1850, on a warrant granted to Jas. McCaren, dated May 29, 1850, as containing 433 acres; another thereof surveyed Nov. 30, 1853, on a warrant granted to M. T. Millikin, dated Nov. 21, 1853, as containing 415 acres; another thereof surveyed Nov. 22, 1853, on a warrant granted to N. J. Mitchell, dated Nov. 11, 1853, as containing 409 acres and 73 perches; another thereof surveyed Aug. 21, 1794 on a warrant dated April 29, 1793, granted to William Parker, as containing 434 acres and 151 perches; another thereof surveyed Aug. 2, 1794, on a warrant dated April 27, 1793, granted to Benjamin H. Talbman, as containing 433 acres and 163 perches; another thereof surveyed Dec. 1 1853, on a warrant dated Nov. 21, 1853, granted to Abraham S. Valentine, as containing 415 acres; another thereof surveyed Aug. 27, 1794, on a warrant granted to Rebecca Waln, dated April 27, 1793, as containing 4 5 acres; another thereof surveyed Aug. 25, 1794, on a warrant dated April 27 1793, granted to Moore Wharton, as containing 433 acres and 163 perches; another thereof surveyed Aug. 25, 1794, on a warrant dated April 27 1793, granted to Elizabeth Wharton, as containing 415 acres; another thereof in warrantee name of James T. Hale containing 80 acres; another thereof surveyed April 7, 1857, on a warrant granted Edgar Holt dated July 22, 1855, containing 420 acres and allowance; another thereof surveyed August 21, 1794, on a warrant dated April 9, 1793, granted to Robert Waters, as containing 433 acres and 163 perches; another thereof surveyed Aug. 18, 1794, as containing 433 acres and 163 perches; another thereof surveyed Aug. 18, 1794, as containing 433 acres and 163 perches on a warrant dated April 29, 1793, granted to Kearney Wharton; another thereof surveyed Aug 18, 1794, as containing 433 acres and 163 perches on a warrant dated April 29, 1793, granted to Samuel Pancoast; another thereof surveyed Aug 16, 1794, as containing 415 acres, on a warrant dated April 29, 1793, granted to Ella Canby; another thereof surveyed Aug 18, 1794, as containing 433 acres 163 perches, on a warrant dated April 29, 1793, granted to John Rugg; another thereof surveyed Aug. 18, 1794, as containing 3 3/4 acres, on a warrant dated April 29, 1793, granted to David Lewis; another thereof, surveyed Aug 18, 1794, as containing 3 3 acres on a warrant dated April 29, 1793, granted to Richard Waln; another thereof surveyed Aug. 17, 1794, as containing 415 acres on a warrant dated April 27, 1793, granted to John Shym; another thereof, surveyed Aug 27, 1794, on a warrant dated April 27 1793, granted to John Barron, as containing 415 acres; and another thereof surveyed Dec. 8, 1854, as containing 367 acres and 142 perches on a warrant dated Dec. 1st 1853, granted to John S. Furst. And also all the following described tracts of land situated in Snow Shoe township, Centre county, beginning at the "Stob Hill Maple" south west corner of the James Dobson survey, and about 1750 feet south from Big Sandry Creek, along the west line of the said James Dobson (said point being located from the two sugars); thence south 86 degrees 15 minutes east 8701 feet to a white oak of 1792; thence south 84 degrees 50 minutes east 535 feet; thence south 85 degrees east, 5484 feet; thence north 4 degrees 30 minutes east, 8197 feet to the above mentioned "Stob Hill Maple," the place of beginning; thence north 4 degrees 45 minutes east, 5710 feet to a white oak corner of 1794; thence north 5 degrees 4 minutes east, 4356 feet to post and stones, corner on line between Jeremiah Parker and Hugh Dalton; thence south 85 degrees east, 10660 feet to a white oak of 1794; thence south 5 degrees west, 4356 feet to a post; thence south 5 degrees west, 5712-10 feet to a white pine marked 1794; thence still south 5 degrees west, 500 feet; thence north 85 degrees west, 5280 feet to line dividing Alexander J. Dallas and Joseph Dobson; thence by said line north 5 degrees east, 500 hundred feet to corner of James Dobson, Samuel Dobson, Joseph Dobson and Alex. J. Dallas; thence north 85 degrees west, 5280 feet to the "Stob Hill Maple," the point of beginning; containing 2016 acres. All the foregoing tracts and parts of tracts of land being the same lands conveyed to Samuel Saylor by deeds of W. E. Gray et ux, J. G. Love et ux and the Snow Shoe Land and Coal Company, the two first being dated April 3rd, 1902, and the latter dated Sept 1, 1902, and conveyed to Samuel Saylor by William P. Mitchell et ux by deed dated July 27, 1903, and by deed of John J. Bower and wife to Samuel Saylor, dated the 22 day of November 1906, and by deed of Mrs Katharine Long, dated March 28 1907 for the Edgar Holt tract; together with all the buildings, improvements, mines, mine cars, rails and fixtures on said lands erected and appurtenant thereto. Seized, taken into execution and to be sold as the property of Samuel Saylor.

ALSO

All that certain messuage, tenement and tract of land situated in Curtin Township, county of Centre and state of Pennsylvania, bounded and described as follows to-wit: Beginning at a hickory grub thence by lands of Peter Robb on road North 6 nine-tenths degrees east 164 perches to stones, thence north 32 degrees west 144 perches to stones, thence by lands of George Weaver South 51 degrees west 160 perches to pine, thence south 22 degrees east 112 perches to place of beginning, containing seventy-eight acres and fifty-six perches and 6 per cent allowance, it being the same premises which John Liggett and Susan his wife by deed dated the 26th. day of April A. D. 1886 granted and confirmed unto Christian Glossner his heirs and assigns, also it being the same premises which Margaret Robb by consent of her husband Pete Robb Jr. by a deed of release bearing date the 28th. of April A. D. 1886 granted and confirmed unto Geo. D. Glosner his heirs and assign forever the same being recorded in the county and state aforesaid in Miss Book Vol. Page 169.

Thereon erected a two-story frame dwelling house and other out buildings.

Seized taken into execution and to be sold as the property of W. D. Myers.

ALSO

All that certain messuage, tenament and tract of land situated in the Township of Spring, County of Centre and State of Pennsylvania bounded and described as follows to wit: Beginning at a post on private road thence along said private road North 68 degrees east 8 3-10 rods to a post; thence along lands now or late of Geo. Valentine North 26½ degrees west 24 9-10 rods to a post; thence by same south 68 degrees 30 minutes west 8¾ rods to a post, thence along lands now or late of the Curtin estate south 26½ degrees east 24½ rods to the place of beginning containing one acre and 39 2 5 perches.

Thereon erected a two-story dwelling house and other out buildings

Seized taken into execution and to be sold as the property of James Simmonds.

TERMS OF SALE—No deed will be acknowledged until purchase money is paid in full.

Bellefonte, Pa., HENRY KLINE,
Nov. 17th 1908 Sheriff

Shipley, residing in said boro, to whom all persons indebted to said estate are requested to make payment and those having claims or demands will make known the same without delay.

B. W. SHIPLEY, Administrator,
Fleming, Pa.,
J. A. B. Miller, Att'y. R-10-1-6t.

TRIAL IN SAN FRANCISCO

Trial of Reuf is Interrupted by Shooting Affair.

DISAPPOINTED JUROR

Morris Haas, a Jewish Saloon Keeper and Ex-convict, Attempts to Kill Man Who Exposed Him

INJURED MAN WILL SURVIVE INJURES

San Francisco, Nov. 13.—Francis J. Heney, a leading figure in the prosecution of municipal corruption in San Francisco, was shot and seriously injured today in Judge Lawlor's court room by Morris Haas, a saloon keeper, who had been accepted as a juror in a previous trial of Abraham Ruef and afterwards removed, it having been shown in court by Heney that Haas was an ex-convict, a fact not brought out in his examination as a veireman.

Immediately after the shooting Haas said:

"Heney exposed my record in court and ruined my business. I am even with him now, and I do not care what happens to me."

The shooting of Heney occurred in the presence of many persons in the court room during a recess in the trial of Ruef, for the third time on the charge of bribery. Tonight Heney, who retained consciousness and who will likely recover, said:

"I will live to prosecute Haas and Ruef."

The physicians in attendance on Heney expressed the opinion that the Assistant District Attorney would live.

During a ten minutes recess and while the jury was out of the court room and after attorneys for the prosecution and defense had returned to the room from a short conference with Judge Lawlor in his chambers, Heney, having resumed his customary seat, had entered into conversation with Chief Clerk McCabe, of the District Attorney's office, Haas came forward from among the spectators, approached Heney and placing a revolver against Heney's right cheek, fired.

Instantly the court room was the scene of the greatest excitement. Several bystanders seized Haas, while others hastened to the relief of Heney, who was caught by those nearest him as he fell forward, the blood streaming from the wound. Medical aid was summoned and Heney was first taken to the Central Emergency Hospital, where it was ascertained that the wound was not necessarily fatal, the bullet having passed under the left ear. The injured man was then taken to the Lane Hospital for more deliberate treatment.

CASTORIA.

Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

There is a merchant in this town,
And he is wondrous wise.
To make it pay he knows the way
Is just to advertise.

Now, there are other merchants here
To whom this hint applies.
If they're discerning they'll soon be learning
It pays to advertise.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Home of Swamp-Root.

Your Neighbors Can Tell You

No doubt, if you yourself don't know, of many marvelous cures of Stomach, Liver, Blood and Skin affections that have been made by the use of Dr. Pierce's Golden Medical Discovery, for it has a most successful record of over *40 years.*

These CURES embrace also many bad cases of Weak Lungs, lingering Coughs, Bronchial, Throat and Lung affections, some of which, no doubt, would have run into Consumption, had they been neglected or badly treated. We don't mean to say that the "Golden Medical Discovery" will cure Consumption when fully seated, but it will strengthen weak lungs, improve digestion, and make pure, rich, red blood thereby overcoming and casting out disease-producing bacteria and giving robust, vigorous health.

All particulars about the "Discovery," its composition and uses, in Common Sense Medical Adviser, 1000 pages, revised up-to-date, sent for 31 cents, in one-cent stamps in cloth covers, or 21 cents for paper covered, to pay cost of mailing *only.* Or send post card request for free booklet to WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, No. 663 Main Street, Buffalo, N. Y.

Behind Dr. Pierce's Medicines stands the Invalids' Hotel and Surgical Institute, at Buffalo, thoroughly equipped and with a Staff of Skilled Specialists to treat the more difficult cases of Chronic diseases whether requiring Medical or Surgical skill for their cure. Send for free
INVALIDS' GUIDE BOOK.

Dr. Pierce's Pleasant Pellets are *little* in size but *great* in gentle acting sanitary results; cure constipation. ASK YOUR NEIGHBORS

THE PRICE OF PEPPER.

It Helped to Change the History of the Old World.

In the sixteenth century all the pepper consumed in England was bought by the English merchants from the Dutch, who brought it from India. Owing to racial jealousy, the Dutch traders in 1599 raised the cost from 3 shillings to 6 shillings per pound. This petty display of ill feeling caused considerable annoyance to the English merchants and aroused in them that feeling of independence which has always been so characteristic of our race.

They determined to import their pepper direct from India in their own ships and for this purpose formed a company, called the Governor and Company of Merchants of London Trading to the East Indies, which in latter days became eventually known as the East India company.

Their first voyages embroiled them in almost innumerable quarrels with the Dutch and Portuguese, and for a time the venture proved a financial failure. It was not until 1615 that the company became successful and obtained lucrative treaties, owing to their decisively defeating the Portuguese.

From this time on their possessions gradually increased, slowly at first and then very rapidly, until, by the wise and beneficial management of such men as Clive, Warren Hastings and Cornwallis, they exercised sovereignty over the greater portion of India.

In this manner it happened that an increase in the price of pepper momentously affected the history of mankind.—London Standard.

DIVISIONS OF TIME.

The Planet Venus Has Neither Days, Months Nor Years.

Though the fundamental division of time, the day, appears intuitive to most persons, it is well to remember that in the arctic regions the marking of this division is by no means easy. During several successive months the sun is either always below or always above the horizon, and the only method—a very uncertain one—of distinguishing between day and night is to observe the times of high and low tide. Division of time into months comes from the motions of the moon. Malays, Polynesians and Australian aborigines reckon time exclusively by months and days.

That greater unit of time, the year, characterized by the regular succession of the seasons, has presented the greatest difficulties to exact determination, partly because the seasons are not sharply distinguished in some regions, partly because of the universal desire to establish among the year, month and day simple relations which find no support in the facts of astronomy.

Inhabitants of Venus, if there are any, must find it extremely difficult to establish units of time. Venus always turns the same face toward the sun, so the planet has no day, and the lack of a moon deprives it of a month. Finally, it has no year, for its axis of rotation is perpendicular to the plane of its orbit and the latter is almost circular.—Chicago News.

Tea as a Panacea.

In its early days in England a wide range of curative virtues was claimed for tea. In the Mercurius Politicus of Sept. 30, 1658, appears a marvelous advertisement extolling the virtues of "that excellent and by all physicians approved China drink called tcha and tay alias tee." And there is in the British museum a broad sheet issued by the founder of Garraway's in which its "particular virtues" are displayed at length. Among many other things it "helpeth the headache, removeth the obstructions of the spleen, cleareth the sight and purifieth adult humors and a hot liver. It prevents and cures agues, surfeits and fevers, prevents consumptions, is good for colds, dropsies and scurvies and expelleth infection." No wonder that it "hath been sold for £10 the pound weight."—Westminster Gazette.

Smart.

Slick (to Blossom)—Is this Mr. Bloomer's office? Blossom—No. His office is on the other side of the passage. Slick (leaving the door open as he walks out)—Thank you, sir. Blossom—Hey! Come back and close that door! Haven't you any doors in your house? Slick—Yes, sir, but they all have springs on 'em. Allow me to show you, sir, my patent double back action door spring. It closes the door without a bang and will last a lifetime.

Discriminating.

"Of course," the British tourist was saying, "I understand that the winning party at your elections is the one that gets out the most voters."

"Not at all," replied the native. "It's the party that puts in the most votes."—Catholic Standard and Times.

Good Turns.

"De Writer was telling me he expected Crittick of the Morning Bugle to do his book a good turn."

"Yes? Well, he seems to have given it two or three good turns. He roasted it pretty thoroughly."—Exchange.

Setting Him Right.

The poet was busy at his desk.

"The fire of genius is burning, eh?" queried the casual caller.

"Not so you can notice it," replied the rhymester. "That's my cigar you smell."—Chicago News.

For a man to exert his powers in doing good so far as he can is a most glorious task.—Sophocles.

His Enforced Trip.

One New York matron was discussing with another New York matron the misfortune which she considered had befallen the husband of a third New York matron.

"You see," she said, "he went down to the steamer with a friend who was going abroad and became so interested talking in the friend's cabin that he never noticed the warning whistle, and the steamer sailed with him on board. However, he sent a wireless to his wife so she wouldn't worry. I dare say he's been kicking himself about the ship ever since."

"Perhaps—and perhaps not," replied the second matron. "The fact is, he told my husband in confidence ten days ago that he intended to be carried off to Europe 'accidentally,' because it was the only way he could go without taking his wife along. But, for heaven's sake, don't mention the matter, my dear, because he told my husband in the strictest confidence."

Truth In a Turkish Bath.

"Judge," said the colored witness, "I'm hongry now. I been tellin' de truth fer two hours!"

"Is that the longest time you ever told it?"

"Yes, suh, an' it's had me sweatin'!"—Atlanta Constitution.

Always Counting.

"Your husband says that when he is angry he always counts ten before he speaks," said one woman.

"Yes," answered the other, "I wish he'd stop it. Since he got dyspepsia home seems nothing but a class in arithmetic."

Weather Forecasts.

The first attempt at scientific forecasting of the weather was the result of a storm which during the Crimean war, Nov. 14, 1854, almost destroyed the fleets of France and England. As a storm had raged several days earlier in France, Vaillant, the French minister of war, directed that investigations be made to see if the two storms were the same and if the progress of the disturbances could have been foretold. It was demonstrated that the two were in reality one storm and that its path could have been ascertained and the fleet forewarned in ample time to reach safety.

A Bird of Paradise.

Four-year-old Frances is happy to be allowed to attend Sunday school at the graystone Episcopal church whose spire is visible from her home. When she returned after her first attendance she was asked by a kindly caller, "Where did you go this morning, Frances?"

"I don't know the name of the church," she replied after a little thought, "but it's the one with the great long beak."—Exchange.

Language of the Hair.

A man can tell a great deal about a woman by studying the manner in which she dresses her hair. One who makes too much observance of the exactness of fashion is apt to be a stickler for form and in consequence an uncomfortable person. It is the woman who is able to discern the beautiful mean who meets all complexities pleasingly.—Chicago Inter Ocean.

The Even Spirit.

"I keep an even spirit in this life," says a Georgia philosopher. "In bright weather I open the life windows and sun my soul, and in the stormy days I think of all the sunshine I have had and shout hallelujah!"—Atlanta Constitution.

Talent creates a work; genius keeps it from dying.—Emerson.

ManZan Reaches the spot. Stops pain. The Great Pile Remedy. Put up in tubes with rectal nozzle. 50 cents. Sold by C M Parrish.

Grippe is sweeping the country. Stop it with Preventics, before it gets deeply seated. To check early colds with these little Candy Cold Cure Tablets is surely sensible and safe. Preventics contain no Quinine, no laxative, nothing harsh or sickening. Pneumonia would never appear if early colds were promptly broken. Also good for feverish children. Large box, 48 tablets, 25 cents. Vest pocket boxes 5 cents. Sold by Greene Pharmacy

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Dr. Shoop's Restorative

J. ZELLAR & SON.

Woman Interrupts Political Speaker

A well dressed woman interrupted a political speaker recently by continually coughing. If she had taken Foley's Honey and Tar it would have cured her quickly and expelled the cold from her system. The genuine Foley's Honey and Tar contains no opiates and is in a yellow package. Refuse substitutes. Sold by C. M. Parrish.

Colds That Hang On

Colds that hang on in the spring deplete the system, exhaust the nerves, and open the way for serious illness. Take Foley's Honey and Tar. It quickly stops the cough and expels the cold. It is safe and certain in results.

Married Man in Trouble

A Married man who permits any member of the family to take anything except Foley's Honey and Tar, for coughs colds and lung trouble, is guilty of neglect. Nothing else is as good for a pulmonary troubles. The genuine Foley's Honey and Tar contains no opiates and is in a yellow package. Sold by C. M. Parrish.

Foley's Honey and Tar cures coughs quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. Sold by C. M. Parrish.

Passed Examination Successfully

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physicians for diabetes, but did not improve until I took Foley Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. by C. M. Parrish.

Saved His Boys Life

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two dozes of Foley's Orino Laxative and the next morning the fever was gone and he was entirely well. Foley's Orino Laxative saved his life." A. Wolkuss, Cashmer, Wis. Sold by C. M. Parrish.

Are you only Half Alive

People with kidney trouble are so weak and exhausted that they are only half alive. Foley's Kidney Remedy makes healthy kidneys, restores lost vitality, and weak, delicate people are restored to health. Refuse any but Foley's Sold by C. M. Parrish.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly, Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

WANTED—BY CHICAGO MANUFACTURING HOUSE,—person of trustworthiness and somewhat familiar with local territory as assistant in branch office. Salary $18 paid weekly. Permanent position. No investment required. Businesse established. Previous experience not essential to engaging. Address, Manager ranches, 323 Dearborn St. Chicago.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates-it is pleasant to take and is highly recommended for children. Sold by Green's Pharmacy.

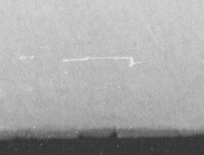
THE WOMAN WHO COUGHED.



Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took 10 $1.00 bottles. Now I'm like a girl of 18.
MISS L. L. CLARK, Indianapolis.

Disease and Health
REVIVO RESTORES VITALITY

THE GREAT REVIVO REMEDY
"Made a Well Man of Me."
produces fine results in 30 days. It acts powerfully and quickly. Cures when others fail. Young men can regain their lost manhood, and old men may recover their youthful vigor by using REVIVO. IS THE INVESTMENT SAFE?

A friend makes inquiry as to the wisdom of purchasing land as far west as Martin county, Tex., which the map shows to be about a hundred miles west of the one hundredth meridian. Generally speaking, the ninety-ninth meridian is accepted as the agricultural "dead line," west of which there is little use to break up the soil for tillage purposes. A glance at any civil map of the United States will show how uniformly the western tide of settlement has stopped at this line, as shown by the location of towns. As indicated in this way, it is seen to run in almost a direct line from the northern boundary of North Dakota through to southern Texas. It is true that during the past six or seven years the rainfall has been sufficiently heavy, so that fair success in purely agricultural pursuits has been had on lands lying quite a distance west of this line, while the breaking up of considerable areas may have had a modifying effect on drought conditions. But a cycle of dry years is quite likely to come, and it is conditions which will prevail in such seasons that the land seeker should take note of if he has in mind purchasing a permanent farm home. The earmarks of this dry country, which is not lacking in fertility, but in moisture, are buffalo grass, sagebrush and cactus. Where herbage of this kind abounds more conclusive evidence is furnished of the unwisdom of purchasing for tillage purposes than in any "spiel" the agent may make, unless, indeed, irrigation is possible, when the situation is entirely altered. The investing of from $2,000 to $6,000 or $7,000 in a quarter section of land is a serious move as well as an important one for the man of limited means who has had to work hard for his savings. The step should be taken only after thorough, sober and careful investigation. Better a fellow should spend $200 acquainting himself thoroughly with a prospective land purchase than to buy in haste and find out later that he has been deceived and swindled.

LADIES TEACHING FARMING.

An interesting fact noted by a leading western educator, State Superintendent Bishop of Nebraska, who is a pioneer in the field of agricultural education in the rural schools, is the prominent part which lady county superintendents of schools are taking in the matter of introducing these subjects into the courses of study in the schools under their charge. One Nebraska lady superintendent has 700 children at work in agricultural classes, while one residing in a southern Iowa county has issued a special bulletin dealing with practical scientific agricultural subjects. Some idea of the interest which the department of public instruction in Nebraska is taking in this line of work may be gained from the fact that arrangements have been made by Mr. Bishop to hold the conventions of the Nebraska Boys' Agricultural society and the Nebraska Girls' Domestic Science association in Omaha during the national corn exposition, which, it is estimated, will be attended by 3,000 boys and girls of the state.

A COSTLY LESSON.

While the numerous forest fires which raged in so many states during September and October are deplorable from almost every point of view, it is more than likely that they will serve a real mission in calling the attention of the people of the country to the immediate necessity of the inauguration of radical and vigorous measures for the protection and conservation of the nation's rapidly diminishing forest resources, which will include not only the planting of new areas to forest trees, but the patrolling of present national and state reserves in such manner as to prevent or at least greatly decrease the enormous losses which have resulted in the present year from the one cause of forest fires. This lesson of forest preservation is one that we are very slow to learn as a people, a costly experience such as we have had the present year being about the only way it could be effectively impressed.

STUFFING TOO MUCH.

The draft horse that has been working hard all summer sometimes gets stocked up and out of condition when the slack season arrives as a result of too little exercise and too much feeding. Much the same condition is apt to prevail in the case of the man of middle age who after many years of strenuous outdoor life with the vigorous appetite which this type of life has developed sells or rents his farm and comes to town and has little to do besides the light chores about the house and sometimes not that. In both cases the only safeguard is a material reduction in the bill of fare and taking of a good bit of exercise every day, even if it is nothing more than walking.

The unloaded gun and the gentle bull are usually the causes of more mischief than the other kind.

Industrial education and labor on the land carried on logically and intelligently are the two great safeguards against plutocracy and anarchy.

The old tabby cat is probably one of the best mouse exterminators to be had, and yet many a housewife considers it a Hobson's choice as between the cat and the mice.

A prominent fruit grower and apple raiser tells us that he would rather have the pigs clean up the windfalls in his orchard than spray his trees if he wanted to secure fruit free from blemishes.

The time honored controversy touching the culinary skill of a fellow's mother and his new wife is largely, though not always, traceable to the fact that in the latter case a trifle of the edge has been worn off the small boy's appetite.

In an experiment conducted by the Michigan experiment station it was found that the growing of cowpeas added to the soil 139 pounds of nitrogen per acre, while soja beans added 112 pounds per acre. In either case the nitrogen added was worth from 15 to 20 cents per pound.

Those who took the pains to sow rape in their cornfields early in July now have a nice supply of succulent green feed which will be relished by their stock well into the winter. The sheep should not be allowed the run of the rape field when the plants are wet from rain or dew.

Many an old orchard which has come into a rundown and unprofitable condition through neglect may be considerably rejuvenated and put on a paying basis by breaking up the sod and by a course of systematic pruning and spraying operations, with the application of sufficient fertilizers to equalize a depleted soil condition.

There is little question that if the person who is occupied in indoor sedentary pursuits devotes on hour to vigorous outdoor exercise he can get more work out of the way in the remaining working hours than if he should spend the entire period in his tasks and take no recreation. While the truth of this statement is generally recognized, it is in all too many cases ignored.

Often a large per cent of the heat value of fuel—particularly soft coal—is not realized because so much coal is put on the fire that proper combustion of the fuel and consumption of the soot and gases does not take place. The addition of much smaller amounts of fuel at somewhat more frequent intervals will tend to correct the difficulty, resulting in a maximum heat value from the fuel consumed.

Cement floors for stables and feed sheds and where possible feed yards have two important points in their favor—they are much more easily cleaned and the manure which accumulates does not lose any considerable part of its fertilizing value through leeching, which is the case in the average barn and feed lot. The initial expense of the cement improvements referred to is considerable, but in a period of years they would be more than paid for in the saving made possible in the handling of the manures.

The judicious use of a telephone in the mere matter of keeping oneself posted as to the prices of stock and produce will frequently in the course of a month or less pay for the cost of the telephone service for the year. Besides this, there is the saving of time in the matter of sending word to neighbors when extra help is needed, while in the case of fire or sickness the benefit can hardly be estimated. In the larger social aspect the presence of a phone in the home does much to lessen the monotony and lonesomeness which might otherwise exist.

While the benefits to be derived from the growing of clover are quite generally recognized, it is worth while now and then to express this benefit in a definite form. In a recent experiment conducted by the Michigan agricultural station it was found that when oats were sown following mixed grasses without clover the yield was thirty-six bushels per acre, while following grasses sown with clover they gave a yield of forty-six bushels. In a like experiment with barley substituted for oats the yields were respectively thirty-eight and forty-nine bushels per acre. A similar experiment conducted by the Alabama station showed that following cowpeas the yield of cotton was increased 696 pounds per acre.

Some of the overzealous promoters of a beet sugar factory which has lately been erected in northern Iowa have had articles published to the effect that the growing of beets enriched rather than impoverished the land. It would be a matter for congratulation if this statement were only true, but the fact of the matter is it is not. It is true that beets do not pull on the fertility of the soil quite as heavily as do onions, wheat or oats, this being due to the fact that, like corn, they draw their sugar content largely from the air and sunshine. But to assert that they enrich the soil, as do clovers, is entirely erroneous and in the end will be of no advantage to the beet raising industry. A man not posted might be induced to grow beets because of the above claim, but his own experience with them would in a very short time disprove the claim.

While an excellent feed for the milk cow, millet is too stiff and rich a feed for horses, having much the same effect on them as does clover, which is exceptionally rich in protein.

While most vegetable products keep best in low temperatures, squashes, pumpkins and cucumbers are an exception, keeping longer if the air is somewhat warmer and drier.

They say that a goose will live to be seventy years old, though just why this bird should be so long lived it is hard to see when the more useful hen lays and cackles herself out inside of four or five years.

Fresh air is one of the most inexpensive things at one's disposal, yet it is worth while remembering that those who live much in it and breath much of it are not only the best physical, but moral types that the country has.

Spraying work done in the orchard in an even greater degree than the fertilizing of land produces a cumulative effect—that is, an application given one season produces a beneficial result covering a period of several succeeding years.

There is none of the root crops which pull as heavily on the strength of the soil as do onions. This means that unless the soil on which they are grown is new and very rich the land should be re-enforced with barnyard manure or commercial fertilizers after the crop has been grown one or two seasons.

An Ohio inventor claims to have secured a product from everyday skimmilk called omsite, which rolls as thin as paper and is even more pliable and which is not affected in the least by the most intense heat. The new article certainly has an interesting future before it if the above claims and others made for it are true.

As is true in the natural world, the mind of the normal boy and girl abhors a vacuum. It is on this account that if they are not provided with wholesome reading for their leisure hours they will get hold of that which is worthless or pernicious. In this respect parents have a very great as well as a very plain responsibility and one that they should by no means neglect.

It is remarkable in how short a time a farm which has been kept in a state of fertility and productivity will deteriorate under a slipshod management which is content with grain raising and selling and is too lazy to embark in stock raising and dairying. The process of soil depletion under the above circumstances is as sure as death and taxes and merely a matter of rapid subtraction.

There have been found stored in the earth vast and abundant supplies of rock phosphate, but no considerable stores of nitrogen. Nature has made good for this seeming oversight by charging the air with a wealth of nitrogen and giving us the legume or clover family, which is endowed with the power to draw these supplies of nitrogen from the air and deposit it in the soil by means of their root systems.

Happy is the housewife who has adopted that philosophy of life which makes it possible for her to snap her fingers at a little dust and devote some of her time to a few things that are of a good deal more concern than plain dirt, which doesn't spoil and seldom blows away. The above is not to be construed as a justification for slovenliness or filth, but to point to a fact which many well meaning women often overlook.

A fond hope is entertained by many of the sterner sex that the time is not far distant when the sensible women of America—and this includes a large majority of them—will formulate and publish an ultimatum declaring their freedom in the matter of headgear and wearing apparel from the dictates of a batch of harebrained persons holding forth in Paris. American men decided two years ago that they would not be bound by the presence or absence of creases in King Edward's trousers.

Pedro's Estella, a Jersey cow owned by the Missouri experiment station, completed in June last a year's test, in which she produced 712.12 pounds of butter, thus entitling her to the three-year-old butter record for the Jersey breed. The cost of the feed for this cow for the twelve months was $80. The receipts from butter sold were $234.96 and $22.12 realized from the sale of 8,850 pounds of skimmilk. The above income was five times as large as was received from the average Missouri cow, while the cost of Estella's feed was double that of the average.

The blue grass pasture is, one year with another, one of the most profitable portions of the average farm and should be held in higher esteem. While there is seldom enough manure to adequately fertilize the plow land of the farm, it would often be a matter of real economy to scatter some fertilizer on the pasture rather than to allow it to leech in the yards, and this holds especially true at times of the year when the cultivated land is occupied with growing crops. Put on the pasture in scant quantities, the fertilizing elements would be utilized immediately with real advantage to the often hungry pastures.

J. E. Trigg

B. FRANK HALL END HIS LIFE

Brother of Judge Harry A. Hall Committed Suicide on Train

CAUSE WAS ILL HEALTH

Was on His Way to Philadelphia to Enter Sanitarium for Treatment at the Time.

WAS ACCOMPANIED BY HIS BROTHER

B. Frank Hall a wealthy resident of St. Mary's, Elk county, and a brother of State Senator J. K. P. Hall and Judge Harry Alvan Hall, also of that county, shot and instantly killed himself about 6.30 o'clock Tuesday night in a parlor car attached to the Buffalo express, which arrived in Philadelphia a few minutes before 8 o'clock.

According to Judge Hall, who was but a few feet distant when his brother killed himself, the latter had been slightly deranged mentally for the last ten days, and at the time of the tragedy was on his way to consult with a Philadelphia specialist.

The suicide evidently was carefully planned and dramatically executed.

With his brother and one or two friends Judge Hall walked into the dining car of the Buffalo express when the train was leaving Lancaster. No one in the car noticed that Mr. Hall acted queerly and the party finished eating dinner and returned to the parlor car directly ahead. Mr. Hall and the judge walked into the smoking compartment and sat down.

"Have you a cigar?" Mr. Hall asked the judge.

Being given a cigar, he then asked for a match. Standing and calmly lighting his cigar, Mr. Hall turned and remarked:

"Excuse me, Harry, for a minute!"

As he spoke Mr. Hall opened the door of the toilet compartment of the car stepped inside and locked the door. The next instant there was a sharp report of a revolver shot, followed closely by a second report. The noise of the express train, which was racing at almost a mile a minute to make up lost time, drowned out the sound of the revolver shots to all but Judge Hall.

Jumping to his feet at the first report, he threw himself against the door of the compartment. As the door flew open he was horrified to find his brother's body lying in a heap and blood trickling from two bullet wounds in the head.

Hastily summoning members of the train crew to his aid, Judge Hall carried the lifeless body of his brother into the smoking compartment. Death had been instantaneous.

Meanwhile passengers in the other end of the parlor car chatted gayly, unaware of the tragedy but a few feet distant from where they sat. The first that any of the passengers knew of what had happened was when one of the group of men who had been eating dinner with Judge Hall and his brother returned to the parlor car, and walking into the smoking compartment, almost stumbled over the body lying on the floor.

Most of the passengers left the train at West Philadelphia and Broad street station with no knowledge whatever of what had happened.

Mr. Hall was 53 years old and was unmarried. He retired from business a number of years ago and spent much of his time abroad and in Philadelphia, where he was a member of several clubs. His body was taken to St. Mary's for burial.

Some Winter Signs.

Old-timers declare that the coming winter will be a mild one. "Here it is the middle of November," said a well known old resident, and we haven't had any real winter yet. I've been watching the weather for about 65 years now and, while I don't always make good guesses, I feel that I'm safe in saying there won't be any of the old-fashioned winter people rave over."

The goosebone prophets agree with other forecasters. The goosebones this fall indicate an open winter. It is a matter of record, however, that the aforesaid goosebones don't seem to have a whole lot to do with the weather, at that. When they point to a mild and open winter things are liable to be very much to the Greenland. The contrary is also true.

Another sign looked to by people who believe in signs in the thickness of cornshucks. When the shucks, or husks, are very thick, it is said that there will be heavy snowfalls.

"How did you find the shucks this year?" was asked one farmer.

"Well, I found some of them very thick and some of them very thin," was the reply.

Farmers who have butchered hogs say that on some of them the thick part of the "melt" is up and on another down. When it is up the winter is supposed to be a hard one. This seems to be another "sign" gone wrong.

If the winter is anything like the signs we may look for changeable weather.

We Want You

To know that we are the exclusive Selling Agents in this vicinity

FOR "Rexall Remedies"

The medicines with a definite aim, one for every human ill, each one guaranteed by us to effect a perfect cure or we refund your money.

FOR Symond's Inn Spices

The Spices with a clean bill of health, guaranteed absolutely pure and free from adulteration of any kind. We added this line to supply a demand for a pure Spice that could not be filled from any other source.

Green's Pharmacy Co.,

The Rexall Store.

BELLEFONTE, PA.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cure wind colic, and is the best remedy for diarrhœa. It will relieve the poor little sufferer immediately. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take on other kind.

It isn't so difficult to strengthen a weak Stomach if one goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the Stomach or stimulating the Heart or Kidneys is surely wrong! Dr. Shoop first pointed out this error. "Go to the weak or ailing nerves of these organs", said he. Each inside organ has its controlling or "inside nerve". When these nerves fail then those organs must surely falter. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by J. Zeller & Son.

The Record in Bellefonte is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Bellefonté citizens testify to this. Here is a case of it:

Mrs. Emma J. Davis of E. Logan St. Bellefonte, Pa. says; I have a great deal of confidence in Doan's Kidney Pills, and have already recommended them in a published testimonial in 1897. I told how I had been relieved of kidney complaint and backache which had kept me suffering for years. Doan's Kidney Pills did this for me when other remedies had failed. Whenever I feel any symptom of my old trouble I send to F. Potts Green's drug store for a supply of Doan's Kidney Pills and it never requires more than a few doses to get me right."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

Remember the name—Doan's—and take no others.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

TO CORRESPONDENCE.—No communication published unless accompanied by the real name of the writer.

Correspondents should write upon but one side of the paper and avoid the use of pale or fancy inks.

EARLE C. TUTEN.

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—Mrs. Lillie G. Reeder has taken apartments in Philadelphia for the winter.

—The hens will have to get busy and do double duty in connection with all other industries.

—Many hunters went into camp last week to be ready for the opening of the deer season Monday.

—It is beginning to look as if the working man would have a chance to enjoy Thanksgiving and Christmas.

—The sudden changes in the weather during this month demands that we take extra precautions against colds.

—We have had a remarkably fine autumn and we must not complain now if the weather gets colder.

—George Springer of Millheim, recently shot an owl that measured four feet two inches from tip to tip of the wings.

—Three orders aggregating 5000 freight cars, valued at about $5,000,000, was placed in Pittsburg during the past week.

—Wm. Keichline & Co. have secured the agency for the Jackson automotile in Centre county and expect soon to have a demonstrating car here.

—Ray Lambert, of Unionville, a graduate of the Philadelphia College of Pharmacy has accepted a position in Brown's drug store in Philipsburg.

—Jersey Shore is having a boom in oyster sales following the finding of a $150 pearl by a citizen who had been eating oysters at Ford's restaurant.

—Wednesday's Williamsport Sun contains a very interesting interview with Missioner Crittenden by Dorothy Deane, editor of the woman's page.

—Dr. William Laurie who went to the home of his daughter in Cape May last week, has suffered a relapse and his condition is such as to give his friends alarm.

—Should Secretary Root be chosen as United States Senator from New York it would probably mean the removal of one of the three reasons why we do not have parcels post.

—The Twentieth Century limited, the fast train of the New York Central was wrecked near Rochester Thursday. Twelve persons were injured. The wreck was caused by spreading rails.

—The parent who undertakes to transfer responsibility for the conduct of his child to the shoulders of the church or school makes a big blunder. It is the home influences that are all powerful.

—A movement is on foot to secure a hospital at Huntingdon. Committees were appointed at a meeting Tuesday evening. There is no hospital along the main line between Altoona and Lewistown.

—The tire mill and machine shop of the Standard Steel works at Burnham have been started on full time. This is the first time in forty-nine weeks that any of the departments have been running on full time.

—Applications for liquor licenses in Centre county are now being filed by the landlords. The last day for filing is Thursday, November 19, and it is likely that there will be strong opposition in some places to the granting of license.

—A fast passenger train on the Bessemer & Lake Erie railroad, carrying about 100 passengers, was wrecked near Butler Wednesday evening, there being only a few who received slight injuries. The wreck occurred in a cut and the soft clay banks served as a buffer.

—The annual reunion of the co-ordinate bodies, Ancient Accepted Scottish Rite Free Masonary, Northern Masonic jurisdiction, will be held in Harrisburg November 17th to 20th. A large class of candidates will receive degrees from the fourteenth to the thirtieth.

—Fire broke out in the agitator room of the nitro-glycerine department of the Emporium Powder company Thursday and resulted in an explosion which demolished the building. All the workmen had ample warning and made their escape from death or injury.

—In the absence of grange master W. F. Hill, of Huntingdon, Hon. Leonard Rhone, of Centre Hall, will preside at the meeting of the state grange in Altoona December 7th. On Tuesday evening, December 8th the meeting will be addressed by Dr. E. E. Sparks, of State College on "Washington, the farmer."

—Owing to a sudden outbreak of scarlet fever among the schools at Bigler, the school board of the district has closed the schools for an indefinite period. So far there are six cases, five cases being being in one family. State Health Inspector Hagerty has ordered that the books used at the school where the children attended be burned.

—Altoona is waging war against the short weight and measure men.

—The snow storm has had the usual effect of causing the trains to be late.

—An exchange wisely says: There are too many fathers who tie up the dog at night and let the boy run loose.

—"Sis Perkins," the funny gal from Posey county, will be at the Garman opera house on Monday November 23.

—It is better to do things than to talk about doing. There is a vast difference between the man who acts and the man who talks.

—The Maccabees meet Wednesday night when they have four candidates for initiation and the first and second degrees will be put on in full form.

Wanted—A good reliable man to take the agency for the Royal Typewriter. Good reference needed. Address W. D. care of Daily News. 2-3t.

—It is reported that the New Jersey and Massachusetts cranberry crop was poor this year but it is believed there will be plenty to go with the Thanksgiving turkeys.

—An enjoyable time is assured for all who attend the Kaffee Klatch at 57 E. Linn street tomorrow Thursday, from 3 to 6 p. m. All the proceeds go to our suburban town of Coleville.

—Prof. James M. Black of Williamsport the well known singer and composer is now in Cleveland, O., overseeing the publication of his new song book, "Songs of the Sacred Service."

—The Penn State football team was defeated at Annapolis by the Naval Academy Saturday amid a downpour of rain, sleet and snow, by the score of 5 0. The Navy's score was made in the first half before the lineup was broken.

—Governor Stuart has very properly and appropriately followed President Roosevelt in calling upon the people to observe Thanksgiving day in the right spirit. He especially enjoins the people not to forget the poor, unfortunate and the afflicted.

—On Sunday evening Rev. James B. Stein began a series of sermons in the Methodist church on "Fools." His sermon Sunday evening was on "The unbelieving, or atheistic fool." One sermon of the series will be preached each Sunday evening.

—The stork has already been caught on the prosperity wave and on Sunday morning left a bright little son at the home of Mr. and Mrs. Herbert Auman. Mr. Auman is foreman at the office of the Keystone Gazette and the newcomer will probably be christened William Howard Taft Auman.

—The Panther hunting club of this place left last Saturday for Eddy Lick in the Scootac region in quest of deer and other big game. The party was composed of R. S. Brouse, Harry Gerberick, J. M. Cunningham, George Weaver, W. C. Cassidy, Edmond Blanchard, John and Andrew Knisely, John and Linn McGinley and Jack Decker.

—Recently some one mailed a dead snake in Altoona to a person in another town, and the odor from the package caused the postmaster to investigate. The matter was reported to the postoffice department and the postmaster at Altoona has received instructions that such articles are not included in the mailable list and should be excluded from the mails.

—The State College High school junior football eleven came to Bellefonte Saturday forenoon in Bowes and Thomson's car to play the Bellefonte juniors. A very hot and evenly contested game followed, which resulted in tie score, 9 to 9. The game was not arranged until Friday evening and the Bellefonte boys did not have much time for practice of either signs or plays.

—While on his way to work at the Hayes Run fire brick plant on Tuesday William Fye, of Marsh Creek, was accidentally shot in the right forearm. He usually carries his gun and had set it down, just as he picked it up the hammer caught on something and the weapon was discharged, the load entering his arm and inflicting an ugly wound. He was taken to the Lock Haven hospital for treatment.

—The State Highway Department Wednesday sold its twenty-five thousandth tag, breaking all records. The purchaser was a man in the interior of the State. Last year the total sales of auto tags amounted to 19,780 and the year before to but 14,00. Already freak requests are rolling in for the 1909 tags, some people wanting 13 and 23. One man asked for four 1s and two have requested No. 10,000. Sheriff Harry Beidler, of Bucks county, will get No. 1. He has had it for several years.

—An order has been issued by the Pennsylvania Railroad company that all equipment of the Pullman company used on that system must be built of steel. The Pullman company has a certain number of years in which to make the change, which means that large orders for steel Pullman equipment must be placed within the next two or three years. Other large trunk lines are expected to take similar action in the near future, and the wooden cars now in service on many of the through lines will be transerred to smaller roads.

—Storm doors and "shut the door" signs are being hunted up.

—The thermomster registered seven degrees below zero at Snow Shoe Monday morning.

—It is beginning to look as though the football season would have to be abruptly closed.

—Isadore F. Wesner, a former resident of Bald Eagle, died at his home in Tyrone Monday morning, aged 49 years and 3 months.

—The Bellefonte merchants are preparing for the Christmas season and are laying in their stock of holiday supplies, so as to be ready to announce their holiday openings at an opportune time.

—The snow storm took so many people by surprise that they forgot about cleaning it off their walks. An effort should be made by everyone to have the snow removed from the walks as soon as possible and thereby greatly lessen danger to pedestriane.

—Joseph Simon of Lock Haven has a dog which he prizes very highly, not on account of the animal's intelligence, but because of its rat exterminating qualities. Last Friday it killed just fifty rats at the Simon store and Brown's grocery just opposite.

—The story is being told of a man who went into a restaurant and during a conversation stated he was going to vote for Bryan so as to have good times. Naturally some took issue with him and said he could not expect good times if he voted for Bryan. He replied, "I voted for Bryan twice before and we always had good times."

—Mrs. Nannie J. Edmunson, wife of Wilbur Edmunson, died at her home in Tyrone Sunday morning of tuberculosis, aged 32 years, 4 months and 3 days. She was born at Fowler and was married to Wilbur Edmunson in 1894. She is survived by her husband three children, her mother Mrs. Elizabeth Nearhoff. The funeral took place Tuesday afternoon.

—The establishment of a state bureau of labor to bring the unemployed and the men who need laborers into touch is advocated by Chief John L. Rockey, of the state bureau of industrial statistics. The chief in his report, which was issued Saturday reviews the industrial conditions and declares that the state must pay more heed to the needs of the working classes, especially in periods of industrial depression.

—The first annual meeting of the Bickford Fire Brick company of Curwensville, was held in the office at that place Tuesday. J. C. Meyer of this place was elected a director and also solicitor. The company has very encouraging prospects for the future. It was decided at the meeting to remove the general office of the company to Pittsburg, where it will be located in No. 1122 Farmers National bank building.

—Harvey W. Watterson, a lawyer and youngest son of Col. Henry Watterson editor of the Louisville Courier-Journal, plunged to his death from the nineteenth floor of his office building at 37 Wall street, New York, Wednesday afternoon. His body shot downward for 110 feet and landed on the roof of a ten story building adjoining. Almost every bone was broken, his head crushed and death was instantaneous.

—The Home Missionary Society of the Presbyterian church of Bellefonte, are preparing for a missionary service to be held in the Chapel, on Friday afternoon of this present week, at which all the ladies of the congregation are invited. It is expected that a thank offering will be made for this particular occasion. The service will begin at 3 30 which is supposed to continue for an hour, when directly after a tea will be served in the Chapel parlors.

—In a report to the school board of Lock Haven the City Superintendent called their attention to the fact that about one-fourth of the boys attending school were tabacco users, and that they are uniformly dull and backward in their studies. The directors have taken action to suppress the use of the weed among the school boys. A list of the boys who use tobacco has been furnished the dealers and parents to warn the former and secure the co-operation of the latter.

—Don't forget the rice and rat party that will be held in the Salvation Army hall above the Centre county bank on Thanksgiving evening. Captain Craig, with her able assistants, Captain Van-Brockoven and Envoy Schofield, have arranged for this supper for the benefit of the local corps at this place and they certainly deserve the help of the people of the town. It is hoped that every one will turn out and help the army along. Tickets can be purchased from any of the members for ten cents. Everybody go.

—After a separation of 63 years, Mrs. James Hawley of Kittaning and her sister Mrs. Rachel Seese of Felix, Somerset county, were reunited. Both were born in Scalplevel, Pa., but in girlhood they were separated. For years neither knew where the other was living, but finally, through a stepbrother, who had learned of Mrs. Hawley's residence at Kittaning, correspondence was begun. Mrs. Hawley is 75 years old and Mrs. Seese 79. They had been less than 75 miles apart most of the time.

—Judge Orvis held argument court in the arbitration room at the court house Tuesday and Wednesday.

—Mrs. Boyd Nolan was taken to the Bellefonte hospital on Monday and on Tuesday underwent an operation.

—The Uzzle hunting party, with which T. H. Harter of this place is hunting are reported as having killed a deer.

—Daniel J. Nolan, a former Bellefonte boy who has been living at Curwensville, has moved his household goods to Tyrone and is now comfortably located on East Twelfth street.

—Miss Helen Crissman daughter of Mr. and Mrs. W. Homer Crissman, who was taken ill with appendicitis last week, was taken to the hospital Tuesday and underwent an operation Wednesday.

—There was one voter in Tioga county who was bound to vote "the whole ticket." The board noticed that he spent about 20 minutes in the booth. And when he deposited his ballot it was noticed that one corner of the sheet was stained. In counting up the vote this ballot was found to have a cross-mark in every square on the sheet—every name in every column of electors marked and every candidate of all parties.

—The team hitched to D. M. Kline's milk wagon ran away this forenoon, starting on Thomas street and taking their course over High street. They were smooth shod and could not travel very fast over the icy street and when in front of the Bush house they were stopped by an unknown hero. When he grabbed one horse by the bridle the team and wagon were turned completely around by skidding over the ice.

—The Gentzel hunting party left Monday evening on the Snow Shoe train for the Allegheny mountains and will be located at Greenwood, about twelve miles from Karthaus. The party is composed of Benjamin Gentzel, Edward Eckenroth, Isaac Miller, Lewis Gettig and Ray Strunk, of Bellefonte; William Rossman, Charles Bilger and Oscar Zimmerman, of Pleasant Gap; Clayton Rossman, of Lemont, and William L. Foster of State College.

—J. C. Murphy, who was convicted in the Westmoreland county criminal court some time ago on a charge of violating the election laws of the state, was on Saturday given a sentence of two years in the work house and will have to pay a fine of $1 and the costs of prosecution. Murphy was the judge of elections for the Port Royal district at the primary election last spring and was also the return judge. The returns as presented to the commissioners showed that many more votes than had actually have been cast were on the return sheet.

—The Knight Templar funeral last Tuesday which laid away the remains of W. L. Steele recalls how seldom that order has been called upon to participate in the funeral services of a deceased brother. The first one in memory of most people was that of D. G. Bush which took place on Saturday, September 25, 1886. There were several previous to this but they are almost out of memory of the present membership. The funeral cortege of the Knights Templar as it passed through the streets was both solemn and impressive.

—On Sunday Rev. Ambrose M. Schmidt, D. D. pastor of the St. John's Reformed church, closed the seventh year of his pastorate in Bellefonte. During the time Rev. Schmidt has been in Bellefonte he has accomplished much good and has built up his church in many ways. He has always been very popular with his congregation and the people of the town in general, which is one of the essentials of a successful ministry. His retainder here is recognition of his ability as a minister of the gospel and his good works bear testimony of his character as a man among the people.

—With Thanksgiving only a short distance off the housewives are getting interested in the supply and prices of turkeys. It appears that there will be plenty of turkeys but the market is not overstocked yet. In the past years the raisers of this fowl having been holding their stock back to keep up the price, but many have found that it does not pay. If the turkey raisers are wise they would dispose of their birds early. Some one has figured out that at the present price of corn an ordinary turkey would eat about ninety cents worth during the time between Thanksgiving and Christmas. It is very rare that as much as that could be made on a single turkey by holding it over.

—The will of the late Wm. L. Steele, which was recently probated, gives his wife the income from his properties during her life, all his personal property and the lots purchased from the Burnside estate on Logan street. At her death his daughter Olive, who kept his books for some years, will receive $400 and the estate is to be divided share and share alike. Mrs. Steele and James K. Barnhart are named as executors and Dr. M. A. Kirk, W. T. Twitmire and C. Y. Wagner as appraisers. At the time of his death Mr. Steele owned 18 dwelling houses. His son William L. will continue contracting and building business as conducted by his father, giving it the same prompt attention.

Unclaimed Letters.

The following letters remain in the Bellefonte P. O. uncalled for Nov. 16th 1908.

Miss Della Brown, J. H. Decker, Andy Fa-John, John Rithreck.

When called for please say advertised

T. H. HARTER, P. M.

Mrs. M. L. Altenderfer.

The home of M. L. Altenderfer on Howard street was saddened Monday morning when his wife Luretia B. L. Altenderfer was called away by death. Mrs. Altenderfer had been ill for about four months with heart disease and Friday was taken much worse. Her condition was then regarded as critical and at ten minutes past eight o'clock this morning she passed away.

The deceased was a daughter of R. M. and Elizabeth Brown and was born at Jersey Shore March 25, 1865, being aged 43 years, 7 months and 21 days. On September 24, 1890 she was married to M. L. Altenderfer and for the past fifteen years they have been residents of Bellefonte. At the age of ten years she united with the Presbyterian church and has during her life time been a very active and consistent member of that congregregation. She was a woman of many excellent traits of character and her death is mourned by a large circle of friends.

Surviving her are her husband, father and mother and four children, Girard, Elsie, Margaret and Ruth; two sisters, Mrs. A. L. English and Mrs. T. C. Dingler, and two brothers, Harry L. and G. Breneman Brown, all of Jersey Shore.

The funeral will take place Thursday afternoon at 2.30 o'clock from the home on Howard street. Rev. J. Allison Platts will conduct the services and interment will be made in the Union cemetery.

Purchased More Lots.

Leathers Brothers, of Howard, who recently secured the disposition of a large number of building lots at State College have now added the Foster farm to their already large holdings in that thriving borough. This farm contains 97 lots and is located right in the heart of the new building district. The location is a very desirable one and will soon be a leading residence section. The large real estate deal which these young men are now promoting in the college town is evidence of the confidence they have in the future of State College borough which is one of the coming towns of the county. They practically control the lot situation there now and as they do not intend to take advantage of their apparent monopoly are prepared to furnish lots at better prices and terms than any other firm. If interested in building lots you should give them a call, as you will find them a very agreeable set of young men and fair and square in their business dealings.

At Blair County Court.

Ex-Judge John G. Love of Bellefonte was at the Blair county court last week where he represented the Pennsylvania Railroad company in the case of the First National Bank of Tyrone vs. the said railroad company in which the plaintiff seeks to recover $3000, the same being the value of a shipment of feed on which the bank discounted the bills of lading and forwarded to the Moshannon National Bank at Philipsburg with drafts on D. Copelin of that place. It seems that the railroad company turned the cars over to Copelin without first requiring the bills of lading. The defense made by the company is that they had been advised by John H. Miller & Sons, of Tyrone, commission merchants, who consigned the shipment to Copelin, that they did not want any cars of grain shipped by them to Copelin held up for want of bills of lading, and the cars where delivered to Copelin with the consent of John H. Miller & Sons, according to their manner of doing business.
